Summary Mission Statement
Frostburg State University is a student-centered teaching and learning institution featuring experiential opportunities. The University offers students a distinctive and distinguished baccalaureate education along with a select set of applied master’s and doctoral programs. Frostburg serves regional and statewide economic and workforce development; promotes cultural enrichment, civic responsibility, and sustainability; and prepares future leaders to meet the challenges of a complex and changing global society.

Frostburg State University Institutional Identity
Frostburg State University has provided paths to success for students for well over a century. Founded in 1898 to prepare teachers, the institution today is a public, comprehensive, largely residential university offering a wide array of distinctive programs at the undergraduate level and select applied graduate programs. The only four-year institution of the University System of Maryland (USM) west of the Baltimore-Washington corridor, Frostburg serves as the premier educational and cultural center for Western Maryland. The University was again recognized in July 2013 by the Colleges of Distinction organization for its continued commitment to and excellence in the areas of student engagement, quality of teaching, vibrancy of the college community and success of its graduates. As outlined in Maryland Ready, the State’s Plan for Postsecondary Education, Frostburg is committed to advancing the educational goals of all by promoting and supporting access, affordability, and completion. The University’s Carnegie classification is Master’s L.

The University draws its students from all counties in Maryland, and from other states and countries. Frostburg State University greatly values diversity among its students, faculty, and staff. The University includes in its Cultural Diversity Program strategies that focus on the effective recruitment, enrollment and retention of students from traditionally underrepresented groups. Frostburg works to create a welcoming and safe environment that promotes the understanding of diversity both domestically and internationally.

The academic experience of undergraduate students includes a rigorous and interdisciplinary general education program in the liberal arts and sciences, including the development of core skills. Major areas of undergraduate specialization include education; business; science, technology, engineering and mathematics (STEM) disciplines; the creative and performing arts; and selected programs in the humanities and social sciences. Frostburg also offers bachelor’s, master’s and doctoral programs at the University System of Maryland at Hagerstown.

Graduate programs provide instruction for students involved in or preparing for professional careers. In addition to master’s degree programs in biology, business administration, computer
FROSTBURG STATE UNIVERSITY

Mission Statement

science, counseling psychology, education, and recreation and parks management, Frostburg offers a Doctor of Education in Educational Leadership. As it has in the past, the University will continue to develop graduate programs in business, the health sciences and other areas aligned with the mission of the University and responsive to Maryland’s development needs.

The University is a student-centered teaching and learning institution that emphasizes experiential education. Frostburg provides a strong support network focused on student success and persistence. Students are encouraged to apply and augment classroom learning through a wide range of experiential opportunities, including internships, volunteerism, service-learning, and undergraduate research. Participation in clubs, campus organizations, and athletic programs fosters students’ communication skills and leadership development.

Frostburg also promotes global learning through international initiatives and programs that provide world-wide opportunities for students, faculty and staff. As a means to further internationalize its campus, the University continues to actively recruit international students and partners with a private organization that offers English language training on the Frostburg campus to international students who intend to enter college.

Frostburg also effectively uses technology to enhance instruction and provide greater accessibility to the University. The application of online learning through course redesign has enabled the University to improve students’ access to technology and assist them in completing their programs of study. In addition, Frostburg’s quality online courses and academic programs provide greater access to the University’s curricular offerings and allow nontraditional students to earn credentials they need for career advancement in such important workforce areas as nursing and teaching. GetEducated.com, a consumer organization that reviews online education, has awarded “Best Buy” status to Frostburg’s Master of Business Administration, Master of Science in Recreation and Parks Management, and Bachelor of Science in Nursing in recognition of these programs’ value.

The University is also strongly committed to preserving the environment through sustainability. The campus’s Climate Action Plan provides a detailed blueprint of specific and tangible methods by which Frostburg can achieve carbon neutrality by the year 2030. The University’s Sustainable Research Facility (SERF) provides a completely off-grid research facility that will serve as an academic center for residential-quality sustainable energy technologies and research. This facility will join Frostburg’s ongoing exploration of alternative forms of energy production, including the Wind-Solar Energy Program (WISE), to establish the University as an important regional center for energy issues and policy. The University’s commitment to sustainability also extends to the health and wellness of its students, faculty, and staff. Through

Mission Statement

its programs and policies, the University fosters the overall good health of its students by promoting good nutrition, exercise, and healthy choices.

Frostburg State University is an important and significant contributor to the economic prosperity of Western Maryland. A February 2013 University study reported that the institution has an economic impact conservatively estimated to be $173 million across the state of Maryland, including $121 million in Allegany County. The number of University economic development initiatives continues to grow, and includes both the well-established Allegany Business Center at Frostburg State University (ABC@FSU) and participation with the Maryland Industrial Partnerships (MIPS), which are funding research and development projects between FSU faculty members and regional companies.

Frostburg State University Institutional Capabilities

Frostburg State University places primary emphasis on its role as a teaching and learning institution offering experiential opportunities for its students. Faculty and professional staff engage in a wide range of scholarly activities and professional involvement, with the ultimate goal of enhancing student learning. The University’s Center for Communications and Information Technology (CCIT), opening spring 2014, and the proposed Public Safety Facility and Education and Health Sciences Center are important and required facilities. Together they ready Frostburg for 21st century modalities of instruction and applied learning experiences while supporting quality teaching, learning, scholarship and co-curricular programming.

The University recognizes the importance of developing a highly educated and technologically competent workforce to meet the needs of a modern knowledge economy. Programs developed in response to the needs of businesses and industries in the region and state include Secure Computing and Information Assurance, Information Technology, and Engineering.

The University continues to strengthen its partnerships and collaborations with community colleges and other institutions throughout the state. The University has negotiated articulation agreements with community colleges to offer its B.S. in Engineering and promote interest in STEM-related disciplines at those sites. Reverse transfer agreements are being developed to assist with the state’s goal to increase the number of Maryland adults with either an associate’s or bachelor’s degree.

Responsive to evolving workforce demands, Frostburg also embraces its responsibility to strengthen public schools through the preparation of certified teacher-education graduates and preK-20 partnerships. Increased opportunities for the continuing education of teachers are achieved through the expansion of outreach and clinical partnerships with the Professional Development Schools in collaboration with the Maryland State Department of Education and

the Maryland Higher Education Commission. The University, through its Center for International Education, also directly supports an Allegany County Public Schools initiative to offer a Chinese language and culture program for elementary students.

In the area of health science and allied health programs, FSU’s RN-BSN program has received accreditation through the Commission on Collegiate Nursing Education (CCNE). Frostburg plans to expand its health science programs.

The University serves as a regional cultural center in Western Maryland. Frostburg’s diverse performing and visual arts programs feature exhibits and performances by students, faculty, national and international professional artists. The University’s arts program attracts community members to campus to experience theatre, music, dance, international film, poetry, literary readings, and the visual arts. Other cultural resources that enhance the University’s visibility in the community include the University’s Center for Creative Writing, which provides space for students and Frostburg residents to pursue creative endeavors. Mountain City Traditional Arts, an arts cooperative staffed by Frostburg students and a University professor/folklorist, works closely with the Allegany Arts Council to provide retail opportunities for local artists.

Each year the University attracts thousands of visitors to the institution and Western Maryland through special events such as Homecoming, Family Weekend, the Cultural Events Series, and its vigorous summer programming, all of which bring additional resources to the institution and to the region. Moreover, representatives of Frostburg State University are actively involved in FrostburgFirst, a community-driven program that fosters economic development and cultural growth in the City of Frostburg.
FROSTBURG STATE UNIVERSITY
Mission Statement

Frostburg State University Institutional Objectives and Outcomes
In fulfillment of its mission and in keeping with the goals of the Maryland Higher Education Commission’s 2013 State Plan for Postsecondary Education and the University System of Maryland’s Strategic Plan, Frostburg State University will address the following short- and long-range goals and objectives over the next several years:

LONG-RANGE:

1. Develop and support academic programs and student services that prepare a changing student population for an era of complexity and globalization.

SHORT-RANGE:

- Increase the number of experiential and applied learning opportunities for students both inside and outside the classroom.
  - Implement experiential and co-curricular transcript by fall 2015.
  - Complete experiential and co-curricular governance activities by fall 2015.
- Increase efforts to encourage globalization of the campus by expanding the number of international students on campus and the number of study abroad opportunities for native students.
  - Increase F-1 and J-1 students enrolled at the University to 125 by fall 2016.
  - Increase the number of student at the University participating in study abroad to 75 by fall 2016.
- Support and develop academic programs that address statewide and regional economic and workforce development needs.
  - Increase the number of health sciences, STEM and teacher education graduates by 5% per degree year through 2020.
  - Gain approval for a new health science program and a doctorate in Business Administration.
- Sustain graduates’ satisfaction rate with education received for work and for graduate and professional schools at 85% or higher.
- Maintain the percentage of graduates employed one year after graduation at 90% through 2019.
LONG-RANGE:

2. *Enhance facilities and the campus environment in order to support and reinforce student learning.*

SHORT-RANGE:

- Build, renovate, or improve major academic, student life, and housing facilities consistent with 21st century technology and environmental standards and technology.
- Increase and support programs, extracurricular activities, and student residential opportunities that reinforce University core values and classroom learning.
- Continue lobbying efforts to move through the Maryland Capital Budget Pipeline the design and construction of new buildings for University Police, EDUC/Health Science, and the College of Business, and a Residence Hall.

LONG-RANGE:

3. *Increase student quality and institutional retention and graduation rates while encouraging baccalaureate students to graduate within a four-year time frame.*

SHORT-RANGE:

- Develop and implement strategies to increase the academic profile for first-time students to the institution.
- Increase the retention and graduation rates for all students to contribute to the State or Maryland completion goal of 55% of residents’ ages 25 to 64 will have a college credential.
- Continue to implement the Achievement Gap initiatives.
- Maintain a diverse student population by continuing to improve retention and graduation rates for minority students.
- Upgrade academic advising and student support services designed to increase student retention and facilitate persistence to graduation.
- Continue the focus on maximizing the effectiveness of financial aid.
LONG-RANGE:

4. **Recruit and retain diverse and talented faculty and staff committed to students learning and University goals.**

SHORT-RANGE:

- Ensure an environment in which faculty and staff feel valued and appreciated (e.g., through celebration of excellence and achievement).
- Emphasize the need for diversity in all searches, emphasizing the recruitment of women, black, and Latino faculty and staff.
- Continue efforts to recruit and maintain a diverse faculty and staff.
- Increase faculty and staff development opportunities.
- Continue to implement the goals and objectives of the Cultural Diversity Program.

LONG-RANGE:

5. **Promote activities that demonstrate the University’s educational distinction.**

SHORT-RANGE:

- Continue efforts to implement marketing and branding strategies.
- Increase fundraising efforts through the FSU Foundation, grants, and contracts that support University priorities.
- Encourage and reward faculty and professional staff who engage in activities such as scholarship, workshops, professional presentations, and artistic performances and creative activities that reflect positively on the University.
- Maintain the number of grant applications, number of grants awarded, grant amount per award, and total grant dollars awarded at $3,000,000 in FY 2019.
- Provide increased opportunities for students to engage in service learning, volunteerism, and community service.
- Provide encouragement and rewards to faculty and professional staff who engage in activities such as scholarship, workshops, professional presentations, artistic performances, and creative activities that reflect positively on the University, as well as support University priorities.
LONG-RANGE:

6. Serve as a catalyst for economic development in Western Maryland and the region.

SHORT-RANGE:

- Evaluate the adequacy and efficacy in spending of current resources and institutional structures that support the institution’s goals of regional outreach, economic development, workforce development, and community service, and attempt to map specific resources to desired outcomes.

- Establish annual goals in seeking extramural financial resources to augment and amplify the institution’s resource needs in its fulfillment of the economic development and public service needs of the region.

- Identify and inform the University’s constituencies of the full range of economic development and community service and cultural initiatives, accomplishments, and recognitions.
