

**TOPIC:** Campus Crime Reports

**COMMITTEE:** Education Policy and Student Life

**DATE OF COMMITTEE MEETING:** June 3, 2014

**SUMMARY:** The data included in this report are drawn from the Campus Safety and Security data files on the website of the Office of Postsecondary Education of the U.S. Department of Education. The site was authorized by Congress with the 1998 amendment to the Higher Education Act of 1965 (HEA) to help potential college students and their parents research criminal offenses on college campuses. The Department of Education requires that, by October 1 of each year, each institution that is Title IV eligible is required to publish and distribute an annual campus security report to all current students and employees.

The statistics represent alleged criminal offenses reported to campus security authorities and/or local police agencies. Therefore, the data collected do not necessarily reflect prosecutions or convictions. Because some statistics are provided by non-police authorities, the data are not directly comparable to data from the FBI's Uniform Crime Reporting System which only collects statistics from police authorities.

The tables on crime reports for 2010, 2011, and 2012 include criminal offenses that occurred on campus. They also include data for on-campus arrests, as well as campus disciplinary actions and judicial referrals, for liquor law violations, drug abuse violations, and illegal weapons possession. Also attached is a glossary that provides definitions for the various terms used in the reports.

Federal regulations also require separate reporting of fire statistics. From 2010-2012, a total of 45 fires were reported. Of those incidents, two were identified as intentional, and none of the fires led to injury or death. Since there are relatively few incidents, fire statistics are not displayed in the attached tables.

Again this year, in addition to total number of reported incidents, the tables provide a rate that reflects the total number of incidents per 1,000 students (based upon fall headcount enrollment). A trend table showing five years of system-wide data (total number of incidents in each category) is included.
