

BOARD OF REGENTS
SUMMARY OF ITEM FOR ACTION,
INFORMATION, OR DISCUSSION

TOPIC: Opening Fall 2015 Enrollment and FY 2016 Estimated FTE Report

COMMITTEE: Education Policy and Student Life

DATE OF COMMITTEE MEETING: November 17, 2015

SUMMARY: This report provides an overview of preliminary fall 2015 undergraduate, graduate and first professional enrollment – overall enrollment growth, full-time and part-time enrollment patterns. In addition, based on the credit hour enrollment of the fall 2015 students, a fiscal year 2016 FTE estimate is included.

In total, USM headcount enrollment increased for a total of 163,454 students. The 125,683 FY 2016 FTE estimate will be much higher (+2,159) than FY 2015 actual.

Most of the growth is due to UMUC. Excluding UMUC, USM was basically flat with only a slight headcount increase (+157) as well as a slight FY 2016 FTE increase compared to FY 2015 actual (+191).

ALTERNATIVE(S): This report is for information only.

FISCAL IMPACT: This report is for information only.

Fall 2015 Preliminary Opening Enrollment & FY 2016 FTE Estimate

Enrollment Report Background:

The purpose of this report is to provide the Board of Regents a fall enrollment and full-time equivalent (FTE) estimate for the current fiscal year. The data are compiled from mandatory Maryland Higher Education Commission preliminary enrollment and credit hour collections. Such data are important for fiscal, as well as enrollment, management. Enrollment projections were submitted last spring, and this report is the first opportunity to compare the accuracy of the institutional enrollment projections, one year out, to the actual enrollments. Similarly, campuses submit FTE estimates in the annual operating budget request. Again, this is the first opportunity to compare campus plans as submitted in the budget request to the FTE achieved in the fall.

Enrollment highlights followed by the comparisons of preliminary enrollment to projected enrollment and FTE estimate to budget estimate are summarized. For further information, please contact Chad Muntz, cmuntz@usmd.edu (301-445-2737).

Enrollment Highlights and Trends:

- Preliminary fall 2015 headcount enrollment at the University System of Maryland (USM) campuses was 163,454 students, an increase of 1,454 over fall 2014. (See Tables 1 & 5)
- Most of the USM growth was from part-time undergraduate students (+1,233) and primarily at UMUC. (See Tables 2 & 5)
- Excluding UMUC, USM's headcount enrollment was basically flat and grew by 0.1 percent (+157 students) over fall 2014. UMCP grew the most (+530), followed by UMES (+186), FSU (+111), and UMB (+53). The remaining institutions decreased student headcount and erased most of the gains. (See Tables 1 & 5)
- Total enrollment at the USM's Historically Black Institutions (HBIs) decreased for the fifth year in a row. Total HBI enrollment fell by 0.8 percent (-104 students) from fall 2014 to 13,003 in fall 2015. The undergraduate population remained near the ten year low by gaining only fifteen students. In addition, the graduate population decreased (-119). (See Tables 1 & 4).
- Overall, USM first-time, full-time students (freshmen) decreased to 12,450 in fall 2015 (-188). The two campuses that grew were UMES (+258) and Salisbury (+42). The remaining campuses, UMCP (-193), UB (-90), UMBC (-82), UMUC (-41), Bowie (-30), Frostburg (-26), Coppin (-23), and Towson (-3), decreased. (See Table 3)

Ten-year trend data for each institution as well as the percentage of each institution's enrollment to the USM total are shown in Table 5. Here it can be seen that USM has consistently grown eight out of the past ten years increasing from 135,319 in fall 2006 to 163,454 in fall 2015 (+28,135). Most of that growth over the past ten years has been at UMUC (+16,107). Additionally, most (85%) of the headcount growth has been at the undergraduate level (+23,938). All institutions except Coppin (-996) have increased headcount over the past ten years.

Fall 2015 Preliminary Opening Enrollment & FY 2016 FTE Estimate

Fall 2015 Preliminary Headcount and Enrollment Projections:

In the spring, the USM submits to the Board of Regents a 10-year enrollment projection. Working with the universities, enrollment projections are created and include the headcount changes expected for the next ten fall semesters beginning in fall 2015. Table A. compares the fall 2015 preliminary headcount to the projections submitted last spring 2015 as well as the fall 14 actual headcount.

USM	162,000	163,087	163,454	367	1,454

While there was variation for individual institutions, at the systemwide level, the projections were reasonably accurate (+0.02% or +367 students). The largest campus headcount variations between the fall 2015 actuals and the enrollment projections occurred at Towson, UB, Salisbury, UMBC, UMCP, and UMUC. The differences between the enrollment projections and fall 2015 actuals for Towson (-224) was the result of a not having the enrollment increase as projected. In contrast, UMCP projected essentially flat enrollment yet enrolled nearly 500 more students this fall than projected. The projections for Salisbury, UMBC and UB were for very few headcount changes, but all three institutions decreased headcount and enrolled fewer students than projected or as enrolled last fall. Finally, the projected UMUC growth in enrollment headcounts was much higher (+818) than the growth anticipated.

Fall 2015 Preliminary Opening Enrollment & FY 2016 FTE Estimate

FY 2016 Full-Time Equivalent Student (FTE) Estimate:

Full-time equivalent students (FTE) are calculated from the credit hour enrollment of the students. The table below provides an estimated FY 2016 FTE for each USM institution calculated from the fall 2015 semester credit hour enrollment. The annualized FTE estimate used a conservative methodology that calculated the proportion of spring to fall credit hours by level for each institution for recent fiscal years. An average spring to fall proportion over recent fiscal years was then calculated. This proportion was applied to fall 2015 credit hours to estimate 2016 spring credit hours. The USM estimate was then compared with individual institutional FY 2016 budget projections and FY 2015 actuals. Table B. displays the FY 2015 actual FTE, the FY 2016 Budgeted FTE, and the current FY 2016 Estimate.

Estimated FTE updated from Fall 2015 actual credit hours of enrollment and USM/Campus estimates

Comparing the FY 2015 actuals (123,524) to the FY 2016 Budgeted FTE (123,653), it can be seen that the system budgeted for minimal growth. However, the current FY 2016 estimate (125,683) is over 2,000 FTE higher than both the FY 2015 FTE actuals and the FY 2016 Budgeted FTE. The difference between the FY 2016 Budgeted FTE and the most recent FY 2016 estimate was minimal for most campuses. The institutions with largest changes were Coppin, UB, UMCP and UMUC. As with the headcount, both Coppin and UB planned for growth that did not occur. While UMCP's FY 2016 Budgeted FTE and enrollment projections planned for no change, the current FY 2016 estimate projects a +400 FTE increase. Finally, UMUC's Budget FTE was for slight growth over the FY 2015 actual. However, the UMUC is estimated to have more FTE (+1,948) than budgeted.

Fall 2015 Preliminary Opening Enrollment & FY 2016 FTE Estimate

Summary

Although it was a small one-year percentage increase, the USM grew, and the USM is now over 163,000 students generating more than 125,000 FTE. This increase is largely attributable to the headcount increases at UMUC. The remaining campuses reported minimal or no growth consistent to their budget plans and enrollment projections. Most of the USM headcount growth was an increase in the undergraduate enrollment, specifically part-time students. Although part-time headcounts increased, there was a disproportionate increase in credit hours which meant that the increase in FTE was partially attributable to a slight increase in credit hour enrollment by the entire student population. In summary, the fall 2015 preliminary headcount and updated FY 2016 FTE estimates are on track as both reasonably align with the enrollment projections and budget planning by the campuses.
