

TOPIC: Resolution on Reimbursement of System Cash Balances Spent on Revenue Bond-Authorized Projects

COMMITTEE: Finance

DATE OF COMMITTEE MEETING: September 10, 2015

SUMMARY: The University System generally authorizes approximately \$115 million annually in capital projects to be funded from revenue bond proceeds. Annual debt issuances are sized to provide approximately one year's worth of bond proceeds for projected spending on revenue bond projects.

For the last bond issue, the 2014 Series A, the System employed a strategy of going to the market once the audited financial statements were available. This change in timing was to the System's advantage as current audited financial statements are an integral part of the disclosure information upon which rating agencies and potential investors rely. The System plans to follow this same strategy for the next bond issue with the expectation of going to the market in late December 2015 or January 2016.

However, by following this schedule, the proceeds from the current issue will be exhausted before proceeds from the next bond issue become available. In the interim, the plan is to use System cash to bridge the gap. At the current spend rate, approximately \$20 - \$40 million of System cash will be spent on project costs which will be eligible for reimbursement from the proceeds of the next bond issue under this resolution. The attached Exhibit A represents all of the projects authorized for revenue bond funding which may potentially utilize System cash balances over the next several months.

IRS rules for reimbursement of advance payments from the proceeds of subsequent bond funds require this resolution.

BOND COUNSEL: Miles & Stockbridge P.C.

ALTERNATIVE(S): The Board of Regents could elect to not spend System cash pending the next bond issuance, and instead advance the issuance process.

FISCAL IMPACT: There is little if any fiscal impact associated with this resolution. The process and record-keeping infrastructure necessary to facilitate initially paying the project costs from System cash balances and then providing a reimbursement from the proceeds of the next bond issue, have been formalized and are in place.

CHANCELLOR'S RECOMMENDATION: That the Finance Committee recommend that the Board of Regents approve the attached resolution to enable the spending of System cash balances on revenue bond-authorized projects to be reimbursed from the proceeds of the next bond issue.
