

TOPIC: Campus Crime Reports

COMMITTEE: Education Policy and Student Life

DATE OF COMMITTEE MEETING: Tuesday, May 16, 2017

SUMMARY: The data included in this report are drawn from the Campus Safety and Security data files on the website of the Office of Postsecondary Education of the U.S. Department of Education. These data are submitted annually by all postsecondary institutions that receive Title IV (federal student aid programs) funding. Additionally, the Department of Education requires that, by October 1 of each year, these institutions publish and distribute an annual campus security report to all current students and employees. This data collection is required by the Clery Act and the Higher Education Opportunity Act. The statistics represent alleged criminal offenses reported to campus security authorities and/or local police agencies. The data collected do not necessarily reflect prosecutions or convictions and are not directly comparable to data from the FBI's Uniform Crime Reporting System, which only collects statistics from police authorities. And although the crime data reported by the institutions have not been subjected to independent verification, at this time, this is an important measure of campus safety and security.

The tables on crime reports by institution include criminal offenses, arrests, and campus disciplinary actions for violations that occurred in the following Clery geography: on-campus, noncampus, and public property (see glossary for definitions). Prior to 2014, only on-campus geography was included. In addition to total number of reported incidents, the tables provide a rate that reflects the total number of incidents per 1,000 students. A trend table showing five years of system-wide data (total number of incidents in each category) is also included. The attached glossary provides definitions for the various terms used in the reports.

This report will inform the regents about various aspects of campus safety and security, providing context the regents may use to ask questions and make suggestions and recommendations about activities at institutions within the System.
