

UPDATEDSUMMARY OF ITEM FOR ACTION,
INFORMATION OR DISCUSSION

TOPIC: Opening Fall 2017 Enrollment and FY 2018 Estimated FTE Report**COMMITTEE:** Finance**DATE OF COMMITTEE MEETING:** November 16, 2017**SUMMARY:** This report provides an overview of preliminary fall 2017 undergraduate, graduate and first professional enrollment—overall enrollment growth, full-time and part-time enrollment patterns. In addition, based on the credit hour enrollment of the fall 2017 students, a fiscal year 2018 FTE estimate is included.

In total, USM headcount enrollment increased (+3,180) for a preliminary total of 175,176 students. The 131,402 FY 2018 FTE estimate will be slightly higher (+694) than FY 2017 actual.

ALTERNATIVE(S): This item is presented for information purposes.**FISCAL IMPACT:** This item is presented for information purposes.**CHANCELLOR'S RECOMMENDATION:** This item is presented for information purposes.

Fall 2017 Preliminary Opening Enrollment & FY 2018 FTE Estimate

Enrollment Report Background:

The purpose of this annual report is to provide the Board of Regents a fall enrollment and full-time equivalent (FTE) enrollment estimate for the current fiscal year. The data are compiled from mandatory Maryland Higher Education Commission (MHEC) preliminary enrollment and credit hour collections. Such data are important for both fiscal and enrollment management decision making. Enrollment projections were submitted last spring, so this report represents the first opportunity to compare the accuracy of the institutional enrollment projections, one year out, to the actual enrollments. Similarly, campuses submit FTE estimates in the annual operating budget request. Again, this is the first opportunity to compare campus' estimated full-time equivalent enrollment, as submitted in the budget request, to the FTE enrollment actually achieved in the fall.

Two important factors account for much of the increase the USM has experienced in both its headcount and FTE enrollment over the past three years. First, beginning this year (FY 2018) the University of Maryland, College Park has included the headcount enrollment from its auxiliary-supported Freshmen Connection program into its fall reporting. Secondly, in FY 2015, UMUC changed how it administers and counts online courses so that all enrollment in those courses is now classified as "stateside" and captured in the fall headcount and FTE enrollment report. In addition, in FY 2016, with the approval of the Middle States Commission on Higher Education, UMUC combined the way it reports overseas and domestic operations (previously those were reported separately). Now, all UMUC headcount and FTE enrollment, irrespective of the geographic location from which it is generated or the instructional modality by which it is generated, is reported as a single, worldwide number.

Enrollment highlights, followed by comparisons of preliminary enrollment to projected enrollment, and FTE estimate to budget estimate, are summarized. For further information, please contact Chad Muntz, Director of Institutional Research at the USM at cmuntz@usmd.edu (301-445-2737).

Enrollment Highlights and Trends:

Preliminary fall 2017 headcount enrollment at the University System of Maryland (USM) campuses was 175,176 students, an increase of 3,180 over fall 2016. The estimated FY 2018 FTE is 131,402, an increase of 694 over FY 2017. (See Tables A, B, 1 & 5)

- Excluding UMUC, USM's headcount enrollment grew by 1.2 percent (+1,330 students) over fall 2016 due primarily to the aforementioned reporting change at UMCP. In addition to UMCP, which was up 1,438 headcount students, Bowie continues to increase behind large new freshmen cohorts and subsequent retention (+479). Towson (+362), UMB (+221), and UMBC (+22) also showed increases. The remaining institutions decreased in student headcount. (See Tables 1 & 5)
- Total enrollment at the USM's Historically Black Institutions (HBIs) was relatively flat (+19) following five years of decline. The total combined headcount for the USM HBIs was 12,531, which was 1,399 less than the peak enrollment reported in Fall 2011. Since 2011, the largest decreases have occurred at Coppin (-920) and UMES (-1,019). Bowie has also declined from its peak enrollment but began growing again in 2014. (See Tables 1 & 4).

Fall 2017 Preliminary Opening Enrollment & FY 2018 FTE Estimate

- USM first-time, full-time undergraduate students increased to the highest levels in 10 years at 14,137 in fall 2017 (+796) primarily due to UMCP's inclusion of the spring admitted first-time, full-time undergraduates attending the fall semester as part of the Freshmen Connection program. The institutions that grew over last year were UMCP (+659), UMBC (+241) and Bowie (+117). The largest decreases over last year occurred at UMES (-138), Frostburg (-52), and UB (-31). (See Table 3)

Ten-year trend data for each institution, as well as the percentage of each institution's enrollment against the total for the USM as a whole, are shown in Table 5. As the data show, the USM has consistently grown eight out of the past ten years, increasing from 143,457 in fall 2008 to 175,176 in fall 2017 (+31,719). While campuses change year-to-year, most of that growth over the past ten years has been at UMUC (+25,207). Additionally, the vast majority of the headcount growth has been at the undergraduate level. Looking at the data from a ten-year perspective, all USM institutions with the exception of UB (-278), Coppin (-1,158) and UMES (-800) had higher headcounts in fall 2017 than in fall 2008.

Fall 2017 Preliminary Headcount and Enrollment Projections

In the spring, the USM submits to the Board of Regents a 10-year enrollment projection. Based on information provided by the universities, the enrollment projection includes the headcount changes expected for the next ten fall semesters (beginning this year with fall 2017) at each USM institution. Table A. compares the fall 2017 preliminary headcount to the projections submitted by the institutions in spring 2017, as well as the fall 2016 actual headcount.

**Table A. The University System of Maryland
Fall 2017 Enrollment Compared to Enrollment Projections**

	Fall 2016 Actual	Fall 2017 Enrollment Projection	Fall 2017 Preliminary Enrollment	Change Over	
				Fall 2017 Projection	Fall 2016 Actual
			Per Fall 2016 Credit Hour Enrollment	Fall 17 Preliminary- Fall 17 Projection	Fall 17 Preliminary - Fall 16 Actual
BSU	5,669	5,669	6,148	479	479
CSU	2,939	2,965	2,893	-72	-46
FSU	5,676	5,699	5,396	-303	-280
SU	8,748	8,758	8,714	-44	-34
TU	22,343	22,350	22,705	355	362
UB	5,983	6,026	5,565	-461	-418
UMB	6,482	6,623	6,703	80	153
UMBC	13,640	13,916	13,662	-254	221
UMCP	39,083	39,495	40,521	1,026	1,438
UMES	3,904	4,039	3,490	-549	-414
UMUC	57,529	58,104	59,379	1,275	1,850
USM	171,996	173,644	175,176	1,532	3,180

Fall 2017 Preliminary Opening Enrollment & FY 2018 FTE Estimate

While there was variation by institution, at the System-wide level the enrollment projections were generally conservative. The largest campus headcount variations between the fall 2017 preliminary headcount and the enrollment projections occurred at UMUC (+1,275), UMCP (+1,026), UMES (-549), Bowie (+479), UB (-461), Towson (+355), and Frostburg (-303). For the third year, UMCP exceeded enrollment projections, primarily at with first-time, full-time new undergraduates taking credit courses for the first time in the fall semester. While many of the enrollment challenged institutions projected growth, the final results showed decreases.

FY 2018 Full-Time Equivalent (FTE) Student Estimate:

Full-time equivalent (FTE) students are calculated from the actual credit hour enrollment of the students. The table below provides an estimated FY 2018 FTE for each USM institution calculated from the fall 2017 semester credit hour enrollment. The annualized FTE estimate uses a conservative methodology that calculates the proportion of spring to fall credit hours by level for each institution for recent fiscal years, as well as campus input about spring 2018 enrollment management plans. The USM estimate is then compared with each institution's submitted fall FY 2018 budget projections and FY 2017 actuals. Table B. displays the FY 2017 actual FTE, the FY 2018 Budgeted FTE, and the current FY 2018 Estimate.

**Table B. The University System of Maryland
FY 2018 USM FTE Estimate**

	FY 2017 Actual FTE	FY 2018 Budgeted FTE	FY 2018 Annualized ESTIMATED FTE	Change Over	
				FY 2018 Budget	FY 2017 Actual
			Per Fall 2017 Credit Hour Enrollment	FY18 Estimate-FY18 Budget	FY 18 Estimate - FY 17 Actual
BSU	4,684	4,715	5,075	360	391
CSU	2,365	2,401	2,238	-163	-127
FSU	4,584	4,358	4,352	-6	-232
SU	7,919	7,927	7,888	-39	-31
TU	18,568	18,661	18,661	0	93
UB	3,980	4,186	3,702	-484	-278
UMB	6,707	6,783	6,783	0	76
UMBC	11,092	11,165	11,259	94	167
UMCP	33,108	33,400	33,733	333	625
UMES	3,651	3,775	3,321	-454	-330
UMUC	34,050	34,390	34,390	0	340
USM	130,708	131,761	131,402	-359	694

Estimated FTE updated from Fall 2016 actual credit hours of enrollment and USM/Campus estimates

Comparing the FY 2017 actuals (130,708) to the FY 2018 Budgeted FTE (131,761) shows that the System budgeted for minimal growth. The current FY 2018 estimate (131,402) is slightly less than the FY 2018 Budgeted FTE, indicating that Budget Projections are aligning closely with campus expectations following the fall enrollment credit hour productivity. The difference between the FY 2018 Budgeted FTE and the most

Fall 2017 Preliminary Opening Enrollment & FY 2018 FTE Estimate

recent FY 2018 estimate was minimal for most campuses. The institutions with largest changes were UB (-484), UMES (-454), Bowie (+360), and UMCP (+333). Half of the institutions will generate lower FTE in FY 2018 than in FY 2017. Overall, the USM is essentially flat

The FTE makes for relative size comparisons between universities. For example, with the noted changes and shifts at USM HBCUs, the FY 2018 combined FTE at Coppin and UMES (5,569) is nearly equal to the credit hour productivity at Bowie (5,075), yet all three combine to produce the same FTE in FY 2018 (10,644) as FY 2008 (10,767). Another trend that shows up in the FTE is that the credit hour FTE at UMUC (34,390) is similar in scale to UMCP (33,733). This is due to UMUC's fast-paced growth over the past ten years with mostly part-time students. Together, UMUC and UMCP combine for nearly half of the FTE of USM (65,701) and over half the headcount.

Summary

The USM enrolled over 175,000 students in fall 2017 and expects to generate more than 131,000 FTE. Although there was some slight growth overall, the combined enrollment at the USM traditional campuses remain approximately the same size as it has for the past three years. Within USM, each institution has seen some change. During that three-year time period, new first-time, full-time undergraduates have increased at UMCP, Bowie, UMBC, and SU to create the largest first-time, full-time cohorts in USM history and resulting in total headcount increases. However, some USM institutions have struggled to grow the first-time, full-time new undergraduates leading to an overall headcount decrease. Most of the USM's growth in headcount has been due to an uptick in the undergraduate part-time enrollment at UMUC. Similarly, only part-time enrollment has grown at the graduate level. In conclusion, the fall 2017 preliminary headcount and updated FY 2018 FTE estimates appear to be on track, with both reasonably aligning, in aggregate, with the enrollment projections and budget plans submitted by the campuses.
