NOTE: UMGC and UMB use all credit hours in FTES computation. All other institutions use only fall and spring credit hours in the computation of annualized FTES. For FY 2015 and part of FY 2016, USM and UMGC FTE increase reflects the stateside consolidation of all UMGC online course administration. Beginning in the last half of FY 2016, USM and UMGC FTE further increased after Middle States approved UMGC accreditation changes that now counts overseas instructional sites as additional locations.

Total FY2025 FTE counts have been updated to reflect the sum of all institutional FTEs. Individual institution data remain unchanged.
