## REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

Board of Regents  
University System of Maryland

We have audited the accompanying financial statements of the University System of Maryland (the System), a component unit of the State of Maryland, and its discretely presented component units as of and for the years ended June 30, 2009 and 2008, as listed in the table of contents. These financial statements are the responsibility of the System's management. Our responsibility is to express opinions on these financial statements based on our audits. We only audited the component unit financial statements of Coppin State College Development Foundation, Inc. and Bowie State University Foundation, Inc. We did not audit the other component unit financial statements. The component units we did not audit represent 99 percent, 98 percent and 92 percent, respectively, of total assets, net assets, and unrestricted revenues of the total component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the component units, is based on the reports of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audits and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the System and of its discretely presented component units as of June 30, 2009 and 2008, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the System's basic financial statements. The accompanying supplemental data as described in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplemental information has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audits and the reports of the other auditors, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## UNIVERSITY SYSTEM OF MARYLAND

### MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED JUNE 30, 2009 AND 2008

---

The management of the University System of Maryland (the System), provides the readers of the System's financial statements with this narrative overview and analysis of the financial activities of the System for the years ended June 30, 2009 and 2008.

#### Financial Highlights

- Unrestricted net assets increased by \$35,081,617 for the year ended June 30, 2009, compared to an increase of \$136,908,894 for the year ended June 30, 2008.
- State appropriations for the System increased by 2.6% for the year ended June 30, 2009, to \$1,030,646,420. For the year ended June 30, 2008, State appropriations increased by 7.6% from the amount received in the year ended June 30, 2007.
- Tuition and fees, after deducting Scholarship allowances, increased by \$34,759,266, or 3.7% for the year ended June 30, 2009. During the year ended June 30, 2008, net Tuition and fees increased by more than 8.1%, or \$70,534,382.
- Investment losses on Endowment assets amounted to \$60,818,099, or a loss of 24.4%, for the year ended June 30, 2009. For the year ended June 30, 2008, investment income on Endowment assets was \$1,156,585, representing a return of 0.5%.

#### Overview of the Financial Statements

The System's financial statements consist of three basic financial statements and the notes that provide information on the accounting alternatives used, and explanatory information and detail on certain financial statement elements. The three basic financial statements are the Balance Sheet, the Statement of Revenues, Expenses and Changes in Net Assets, and the Statement of Cash Flows.

The *Balance Sheet* presents information on the System's assets, liabilities and net assets, all as of the end of the reporting period. Net assets represents the difference between assets and liabilities, and is detailed into classifications that help readers understand the constraints that the System must consider in making decisions on expending assets. Over time, changes in net assets can help in understanding whether the financial condition of the System is improving or deteriorating.

The *Statement of Revenues, Expenses and Changes in Net Assets* presents information on the changes in net assets during the year. All changes in net assets are reported as soon as the underlying event takes place, regardless of the timing of the related cash flows. Thus, revenues and expenses are recorded for some items that will result in cash flows in future fiscal years (for example tuition and fees owed by students, or vacation earned by employees but not used at year-end).

The *Statement of Cash Flows* presents information on sources and uses of cash during the year. This statement details the changes in cash and cash equivalents from the amounts reported at the end of the preceding year, to the amounts reported in the Balance Sheet as of the end of the current year. Sources and uses are organized into operating activities, noncapital financing activities, capital and related financing activities, and investing activities.

The System's financial statements include all accounts and balances of the System (considered the primary government, in accounting terms), as well as 16 legally-separate and distinct entities for which the System is financially accountable, which are considered component units. Of the 16 component units, three are considered major component units due to their significance in terms of size, while the rest are considered non-major component units.

The emphasis of this Management's Discussion and Analysis is on the System itself. Reference should be made to the separately audited financial statements of the component units for additional information.

## **Financial Analysis**

As of June 30, 2009, the System's financial health remains strong, with assets exceeding liabilities by \$3,925,233,508, shown on the Balance Sheet as total net assets. This compares with total net assets of \$3,741,283,144 as of June 30, 2008. As suggested earlier, when viewed over time, net assets may be useful as an indicator of financial health.

For the year ended June 30, 2009, total net assets increased by \$183,950,364. Net assets invested in capital assets, net of related debt, increased by \$197,336,347, while unrestricted net assets increased \$35,081,617, and restricted net asset categories decreased by \$48,467,600.

Unrestricted net assets represent the portion of assets, after taking into account liabilities, which can be used to meet ongoing obligations and fund new initiatives. The \$35,081,617 increase in unrestricted net assets for the year ended June 30, 2009 is attributable to continuing institutional efforts to limit expenditures, the effects of a state-wide furlough plan requiring System employees to take unpaid leave, revenues from enrollment growth beyond that anticipated, as well as efforts to accumulate resources to provide for future facilities needs and renewal and renovation requirements. These factors were offset by mid-year reductions in State Appropriations of \$29,000,000, investment losses on the unrestricted net asset portion of endowment funds, and planned spending on acquisitions of buildings and renovations using cash balances.

As of June 30, 2008, the System's assets exceeded liabilities by \$3,741,283,144. This compares with total net assets of \$3,424,332,174 as of June 30, 2007.

For the year ended June 30, 2008, total net assets increased by \$316,950,970. Net assets invested in capital assets, net of related debt, increased by \$199,326,790, while unrestricted net assets increased \$136,908,894, and restricted net asset categories decreased by \$19,284,714.

The \$136,908,894 increase in unrestricted net assets for the year ended June 30, 2008 is attributable to continuing institutional efforts to limit expenditures, revenues from enrollment growth beyond that anticipated, as well as efforts to accumulate resources to provide for future facilities needs and renewal and renovation requirements.

The table below presents summary-level information of the System's assets, liabilities, and net assets as of June 30, 2009, 2008 and 2007.

The System's operating revenues arise from activities associated with its core mission; education, research, and public service.

For the years ended June 30, 2009, 2008 and 2007, operating revenues, which under the definitions used by Governmental Accounting Standards Board (GASB) excludes state appropriations, are detailed below:

	2009		2008		2007	
	\$	%	\$	%	\$	%
Tuition and fees	\$978,593,022	36.2%	\$943,833,756	36.2%	\$873,299,374	35.8%

Tuition and fees reflect the increases in tuition rates and other student charges enacted for the years ended June 30, 2008 and 2007 for graduate and non-resident undergraduate students, as well as modest enrollment increases in both years, most notably at the University of Maryland College Park, and the University of Maryland University College. Fee increases for residence halls and dining facilities and enrollment increases account for the increase in revenues from auxiliary enterprise activities.

For the years ended June 30, 2009, 2008 and 2007, operating expenses are detailed below:

	2009		2008		2007	
	\$	%	\$	%	\$	%

Operating expenses are detailed by (1) employee costs, (2) payments to suppliers, contractors and other, and (3) depreciation expense in the notes to the financial statements, in order to provide an alternative presentation of operating expenses.

For the year ended June 30, 2009, increases in employee payments account for largest component of the overall increase in operating expenses of almost \$200 million over the year ended June 30, 2008, the largest portion relating to Instruction programs.

For the year ended June 30, 2008, increases in payments to suppliers, contractors and other payments account for largest component of the overall increase in operating expenses over the year ended June 30, 2007. Payments to suppliers, contractors and other increased by more than 16% over the year ended June 30, 2007, with the largest increase associated with research activities.

For the year ended June 30, 2007, increases in employee costs, most significantly in the instruction, academic support, and institutional support program categories, account for most of the overall increase in operating expenses over the year ended June 30, 2006.

### **Capital Asset and Debt Administration**

The System added \$456,846,565 in new capital assets during the year ended June 30, 2009. Of these additions, \$177,717,059 was funded through the use of State of Maryland debt proceeds or cash balances, \$118,378,403 was funded from the proceeds of System debt obligations, and the balance of \$160,751,103 was purchased using System cash balances or received as donations.

During the year ended June 30, 2009, several significant projects were completed and placed in service, including the first phase of a \$73 million new College of Liberal Arts at Towson University and a \$73 million new Health and Human Services building at Coppin State University.

The System added \$374,613,248 in new capital assets during the year ended June 30, 2008. Of these additions, \$156,128,731 was funded through the use of State of Maryland debt proceeds or cash balances, \$75,932,467 was funded from the proceeds of System debt obligations, and the balance of \$142,552,050 was purchased using System cash balances or received as donations.

During the year ended June 30, 2008, several significant projects were completed and placed in service, including a \$66 million new Teacher Education and Technology Center at Salisbury University and a \$21 million addition to Van Munching Hall at University of Maryland, College Park.

The System added \$337,946,003 in new capital assets during the year ended June 30, 2007. Of these additions, \$147,870,968 was funded through the use of State of Maryland debt proceeds or cash balances, \$44,334,947 was funded from the proceeds of System debt obligations, and the balance of \$145,740,088 was purchased using System cash balances or received as donations.

During the year ended June 30, 2007, several significant projects were completed and placed in service, including a \$72 million Biosciences Research building at the University of Maryland College Park, a \$21 million Center for Business and Graduate Studies at Bowie State University, and the third academic building at the Universities at Shady Grove, the System's first gold LEED certified building.

These facilities are but a small sample of the important investments in upgrading the System's academic and research facilities, as well as transforming campuses into learning communities.

The System has financed equipment and personal property acquisitions through the use of \$65,000,000 of proceeds of multiannual rate reset securities known as the Revolving Loan Program originally issued in 2003 as auction rate reset securities. In April, 2008, the System purchased \$15,000,000 of the auction rate reset securities in response to failed auctions that were occurring for most issuers of auction rate reset securities as a result of the collapse of the credit insurance market. On June 26, 2008, the 2003 Series A Bonds in a principal amount of \$50,000,000 were converted from an auction rate mode to a Multiannual Rate which is determined annually as a result of an auction process. The securities were successfully remarketed in May 2009 at an annual interest rate of 0.55% for the coming year.

On June 26, 2008, the System issued \$90,000,000 of 2008 Series A Revenue Bonds to fund construction, renewal and replacement, and acquisition projects previously authorized by the Board of Regents.

On July 3, 2008, the System issued \$29,070,000 of 2008 Refunding Series B Revenue Bonds to refinance \$28,880,000 of previously issued revenue bonds. The refinancing will reduce future principal and interest payments by \$1,018,772, in present value.

On June 26, 2009, the System issued \$100,000,000 of 2009 Series A and B Revenue Bonds to fund construction, renewal and replacement, and acquisition projects previously authorized by the Board of Regents.

On July 6, 2009, the System issued \$31,275,000 of 2009 Refunding Series C Revenue Bonds to refinance \$31,750,000 of previously issued revenue bonds. The refinancing will reduce future principal and interest payments by \$1,813,416, in present value.

On October 7, 2009, the System issued \$56,045,000 of 2009 Refunding Series D Revenue Bonds to refinance \$55,355,000 of previously issued revenue bonds. The refinancing will reduce future principal and interest payments by \$4,014,543, in present value.

The System continually pursues opportunities to reduce its overall effective cost of capital financing, and as conditions in the financial markets allow, refinances previously issued debt with new debt at lower interest costs.

During the year ended June 30, 2007, the System refinanced \$75,630,000 of previously issued Revenue Bonds through the use of \$75,935,000 of 2007 Series A Revenue Bonds issued in April 2007. The refinancing resulted in a reduction in future principal and interest payments by more than \$3,674,057, in present value.

### **Economic Factors and Next Year's Budget and Rates**

Enrollment demand, availability of funding for contracts and grants, and the State of Maryland support through both operating and capital appropriations are the three most significant drivers of the System's revenue base.

Across all student categories, enrollment is expected to continue to increase over the next ten years, with more than 19% more students anticipated by the end of fiscal year 2017. Projections for fiscal year 2010 reflect an expected increase of approximately 3,000 students, or just under 3% growth in full-time equivalent enrollment. During the past four years, the System has held resident tuition levels constant, improving the System's institutions relative affordability with their regional peers. Improving access through moderating tuition increases and improving financial aid will enhance prospects for attaining the enrollment levels projected.

The Federal American Recovery and Reinvestment Act has provided a large amount of new and additional funding for contract and grant work at the System's institutions. Several System institutions have successfully developed research capabilities and expertise in areas of national importance and have experienced increases in contract and grant awards. Combined with geographical proximity to Federal agencies and complementary private enterprises, the System is well positioned for further growth in research activities, particularly in the health sciences and defense-related fields.

The economy of the State of Maryland is experiencing many of the same effects, if not in the same magnitude, that the rest of the nation is undergoing as a result of the current financial crisis. The impact of the recession, and its impact on state government receipts, is expected to extend beyond fiscal year 2010 and into the next. The state government closely monitors revenue receipts and revises projections on a quarterly basis. Projected revenues for fiscal year 2010 are lower than budgeted, and the Governor and top state officials have acted to curtail spending by state agencies, including the System and the rest of public higher education. Until projected revenues begin to stabilize at levels sufficient to fund state operations, there will be additional actions taken to further limit spending. As an economic engine for the entire state and region, the System would advocate a minimization of the impact that any additional actions taken by the state on funding provided to higher education.

Personnel costs account for more than two-thirds of the System's noncapital spending. Healthcare costs and the adoption of a state-wide funding strategy for providing for retiree's healthcare costs are significant drivers of the System's future spending levels. As enrollment continues to increase, it is reasonable to expect that additional faculty and support staff will be required to maintain the current level of educational quality.

## UNIVERSITY SYSTEM OF MARYLAND

### NOTES TO FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2009 AND 2008

---

#### ORGANIZATION AND PURPOSE

The University System of Maryland (the System) is a component unit of the State of Maryland (the State) and is governed by its Board of Regents (the Board).

The System comprises eleven degree-granting institutions, two research entities and an administrative unit. Its degree-granting institutions provide a full range of undergraduate, graduate, professional and continuing education opportunities for students. Its research and public service entities conduct basic and applied research, and transfer new technology to constituencies. The administrative unit includes the System Chancellor and staff who serve as support to the Board.

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed by the System are summarized below.

**Reporting Entity** - The financial statements of the System include all funds and organizations included in the legal entity encompassed by the System, and other legally separate entities for which the System is financially accountable or which otherwise meet the criteria established in *Governmental Accounting Standards Board (GASB) Statement #14, The Financial Reporting Entity*, and *GASB Statement #39, Determining Whether Certain Organizations Are Component Units*. Amounts held in System accounts on behalf of separately organized entities are included as assets, with a corresponding liability reflected.

The System has recognized, as affiliated foundations, sixteen organizations created and operated in support of the interests of the System or any of the institutions that comprise the System. Each of these affiliated foundations are considered to (1) receive or hold economic resources that are to be used for the benefit of the System or its institutions, (2) receive or hold economic resources which the System or its institutions are entitled to or otherwise have the ability to access, and (3) are significant to the financial statements of the System or the institutions with which the foundation is affiliated. As a result, each of the sixteen affiliated foundations meet the criteria for inclusion in the financial reporting entity. Based on the criteria in *GASB Statement #14, The Financial Reporting Entity*, each of the affiliated foundations are shown in a discrete presentation.

The University System of Maryland Foundation, Inc., the University of Maryland College Park Foundation, Inc., and the University of Maryland Baltimore Foundation, Inc. are considered major component units due to the significance of the financial statement amounts to the System and its financial statements.

The following affiliated foundations are considered nonmajor component units:

- Medical Alumni Association of the University of Maryland, Inc.
- The Robert H. Smith School of Business Foundation, Inc.
- M Club Foundation, University of Maryland, Inc.
- The Maryland 4-H Foundation, Inc.

University Research Corporation International, Inc.  
Bowie State University Foundation, Inc.  
The Maryland Center @ Bowie State University, Inc.  
Towson University Foundation, Inc.  
Frostburg State University Foundation, Inc.  
Coppin State University Development Foundation, Inc.  
University of Baltimore Foundation, Inc. and University Properties, Inc.  
Salisbury University Foundation, Inc.  
University of Maryland, Baltimore County Research Park Corporation, Inc.

During the years ended June 30, 2009 and 2008, the foundations distributed approximately \$78,000,000 and \$79,000,000, respectively, to the System including its institutions for both restricted and unrestricted purposes.

All of the System's component units are nongovernmental entities that prepare financial statements using the principals and accounting standards promulgated by the Financial Accounting Standards Board (FASB).

Complete financial statements of the affiliated foundations may be requested from the System's Office of the Comptroller at 3300 Metzert Road, Adelphi, MD 20783.

The University of Maryland, Baltimore provides services to hospital and critical care facilities under contractual arrangements with the State. The expenditures relating to these activities are reported within the hospital functional category. The revenues derived from these activities are reported primarily as contract and grant revenues.

**Measurement Focus and Basis of Accounting** - For financial reporting purposes, the System is considered a special-purpose government engaged only in business-type activities. Accordingly, the System's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred.

**Application of Accounting Standards** - The System has the option to apply all FASB pronouncements issued after November 30, 1989, except for instances in which a pronouncement of the FASB conflicts with pronouncements of the GASB. The System has elected to not apply FASB pronouncements issued after November 30, 1989.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the System's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

**Operating and Nonoperating Revenues and Expenses** - Operating revenues and expenses are generally associated with those activities that relate directly to the core activities of instruction, research and public service that form the essence of the System's mission. Nonoperating revenues, expenses, gains and losses represent amounts that recur regularly but are not included in operating revenues and expenses. *GASB Statement #34 Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* specifically defines State appropriations as nonoperating revenues.

**Cash and Cash Equivalents** - Cash and cash equivalents include demand deposits with financial institutions, as well as highly liquid investments that are both readily convertible to known amounts of cash and are so near to their maturity that they present an insignificant risk of changes in value because of changes in interest rates. Only investments with an original maturity of three months or less satisfy the criteria for cash equivalents.

**Inventories** - Inventories are valued at cost, determined under the first-in, first-out method, which is not in excess of net realizable value.

**Capital Assets** - Property, plant, equipment, and books and materials which are part of a catalogued library, are stated principally at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. Personal property with an original cost of more than \$5,000 and outlays for real property in excess of \$250,000 are considered capital assets.

Generally, the cost of all capital assets other than land, certain inexhaustible improvements to land, and collections of works of art are assigned to expense over a set of useful lives specific to the type of asset, using a straight-line method of depreciation. The range of useful lives used for the major categories of capital assets is:

Infrastructure and land improvements	20 - 25 years
Buildings and improvements	20 - 40 years
Contents	3 - 15 years

Depreciation expense is assigned to program expense based on the nature and use of the capital asset.

**Reclassifications** – Certain amounts for the year ended June 30, 2008 have been reclassified to conform with the presentation for the year ended June 30, 2009.

**Pending change in accounting principles** – In June 2007, *GASB Statement #51, Accounting and Financial Reporting for Intangible Assets*, was issued. This accounting standard establishes accounting and financial reporting requirements for intangible assets such as easements, patents and trademarks, and computer software.

In June 2008, *GASB Statement #53, Accounting and Financial Reporting for Derivative Instruments*, was issued. This accounting standard establishes recognition, measurement, and disclosure requirements for derivative instruments held by state and local governments, including public higher education institutions.

The System is in the process of assessing the impact of these new accounting standards and will present its financial statements for the year ended June 30, 2010 in accordance with *GASB Statements #51 and #53*.

## 1. CASH AND INVESTMENTS

### Cash and cash equivalents

As of June 30, unrestricted cash and cash equivalents consist of the following:

	<u>2009</u>	<u>2008</u>
Cash and short-term investments on deposit with the State Treasurer	\$1,115,319,022	\$1,008,837,395
Demand and time deposits	38,356,989	34,455,564
Total	<u>\$1,153,676,011</u>	<u>\$1,043,292,959</u>

The System does not have a formal policy addressing custodial credit risk.

As of June 30, 2009, and 2008, the carrying amount of the System's demand and time deposits was \$38,356,989 and \$34,455,564, as compared to bank balances of \$43,118,250 and \$38,537,478, respectively. The difference is primarily caused by items in-transit. Of the bank balances, \$16,465,520 and \$14,014,021 was covered by Federal, private or foreign national government depository insurance, or was collateralized by a pledge of United States Treasury obligations held by the System's agents in the name of the System, and \$26,652,730 and \$24,523,457 was uninsured and uncollateralized as of June 30, 2009 and 2008, respectively.

The Annotated Code of Maryland requires the System to maintain its cash balances on deposit with the State Treasurer, except for demand and time deposit accounts established to satisfy urgent cash requirements, assets associated with endowment funds or proceeds of System financing arrangements. The State Treasurer maintains State funds on a pooled basis in accordance with the Annotated Code of Maryland.

Money market accounts used for unrestricted cash and cash equivalents are not rated by rating agencies.

The System has entered into agreements with trustees for the benefit and security of registered holders of certain debt obligations issued by the System. These agreements permit the System to invest amounts maintained in trust funds in:

- United States Treasury and agency obligations.
- Deposits, having a maturity of no more than 365 days, in any bank, savings institution or trust company to the extent such deposits are fully insured or collateralized.
- Commercial paper rated at least A-1 by Standard & Poor's Corporation (Standard & Poor's) and P-1 by Moody's Investors Service, Inc. (Moody's) having a maturity of no more than 270 days.
- Repurchase agreements.
- Obligations of any state or political subdivision rated by Standard & Poor's and Moody's in one of its two highest rating categories.
- Corporate obligations rated AAA by Standard & Poor's and Aaa by Moody's.

As of June 30, restricted cash and cash equivalents includes:

	<u>2009</u>	<u>2008</u>
Money market accounts –		
Endowment funds uninvested cash	\$47,280	\$364,041
Money market accounts – unspent proceeds of debt	166,614,949	69,057,759
	<hr/>	<hr/>
Total	\$166,662,229	\$69,421,800
	<hr/>	<hr/>

Unspent proceeds and other restricted debt-related trust account balances and endowment funds uninvested cash balances are maintained in money market accounts rated AAA or equivalent by rating agencies.

### **Investments**

In July 2005, the System transferred title to its endowment investments, approximately \$197 million in fair market value at the time of the transfer, to the University System of Maryland Foundation, Inc., in exchange for an equivalent proportionate interest in the long-term investment portfolio managed by the University System of Maryland Foundation, Inc. According to the terms of the agreement, the System is to pay a fee to the University System of Maryland Foundation, Inc., on an annual basis that amounts to 0.25% of the fair value of the assets invested on behalf of the System. The agreement is for a term of five years, with renewable two-year extensions at the option of the System, unless notice of intent to terminate the arrangement is provided within 180 days prior to the expiration of the term. In the event of termination of the arrangement, funds invested with individual investment managers that have commitments from the University System of Maryland Foundation, Inc., to maintain investments for certain minimum time periods may not be returned to the System until those constraints have been satisfied.

Investments in the University System of Maryland Foundation, Inc. are accounted for as an open-ended mutual fund. Asset values, investment gains and losses, and other portfolio-wide transactions are allocated based on the number of units or shares that each fund has relative to the total number of shares or units. Assets associated with the System's investments are reported as Endowment Investments on the Balance Sheet of the University System of Maryland, and Investments on the Balance Sheet of the University System of Maryland Foundation, Inc., with a corresponding liability reflecting the fair value of the System's interest in the investment portfolio.

The System discloses investment risks, below, in accordance with *GASB Statement #40, Deposit and Investment Risk Disclosures—an amendment of GASB Statement No. 3*, which defines these risks as follows:

#### **Interest rate risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

The System has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

### **Custodial credit risk**

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the System would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial risk if the securities are uninsured, are not registered in the name of the System, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the System's name.

Endowment investments managed by the University System of Maryland Foundation, Inc. are uninsured and are not registered in the name of the System, as they are a part of a commingled portfolio comprising proportionate interests of several different entities.

None of the System's restricted investments are exposed to custodial credit risk.

### **Credit risk**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The System is exposed to credit risk on its Endowment investments managed by the University System of Maryland Foundation, Inc.

### **Foreign currency risk**

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment.

The System is not exposed to any material amount of foreign currency risk.

### **Concentration of credit risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of the System's investment in the securities of a single issuer.

As of June 30, 2008, the System had the following investments, which individually represent 5% or more of total investments:

	<b>2008</b>	
	<b>Fair value</b>	<b>Portion of total</b>
Federal Home Loan Mortgage Corporation	\$51,467,616	17%

## Endowment investments

As of June 30, endowment investments consist of the following, stated at fair value:

	<u>2009</u>	<u>2008</u>
Corporate debt	\$17,625	\$17,625
Corporate equities	442,068	132,191
Assets invested with University System of Maryland Foundation, Inc.	<u>163,698,315</u>	<u>235,460,620</u>
Total	<u>\$164,158,008</u>	<u>\$235,610,436</u>

Assets associated with endowment funds are invested in accordance with the terms of donor agreements in those instances where such agreements place constraints on allowable investments.

A spending rule has been adopted by the Board to ensure that endowment funds retain a consistent level of purchasing power over time. The spending rule provides for a target rate of spending of 4.75% of a rolling twelve-quarter average market value of the endowment fund. The spending rule is reviewed periodically by the Finance Committee of the Board. Net appreciation on investments of the endowment funds approximates \$112,834,000 and \$185,799,000 as of June 30, 2009 and 2008, respectively. Reinvestments of net appreciation are considered to be subject to the same restrictions as the original gift amounts, and accordingly, are reflected as a component of restricted, expendable net assets.

The Maryland Uniform Management of Institutional Funds Act governs the use of net appreciation, both realized and unrealized, of endowment investments. This law allows a governing board to appropriate for expenditure only those amounts in excess of the historic gift amount that are prudent, taking into consideration long and short term needs of the institution in carrying out its educational, religious, charitable, or other eleemosynary purposes, its present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions.

## Other investments

Other investments include an partnership interest in a real estate partnership formed to facilitate the long-term development of a parcel of land owned by the University of Maryland College Park. The carrying value of Other investments is assessed on an annual basis by reference to the recorded value of university's partnership interest.

## Restricted investments

Restricted investments represent unspent proceeds and other debt-related trust account balances invested in U.S. government and agency obligations.

As of June 30, 2008 restricted investments consist of:

	Fair value	Investment maturities	
		Less than 1 year	1 to 5 years
U.S. government and agency obligations	\$73,584,640	\$51,345,858	\$22,238,782

### Allocation of investment income

Investment income is assigned to the accounting funds, including endowments, in proportions associated with investments held by the various accounting funds. For the years ended June 30, 2009 and 2008, investment income attributed to unrestricted funds and restricted funds was:

	<u>2009</u>	<u>2008</u>
Unrestricted funds	\$24,239,002	\$54,412,637
Restricted funds	(38,639,851)	7,231,558

Revenue bonds, net			\$928,682,539

Revenue Bonds have been issued pursuant to an Indenture of Trust, an agreement entered into with a trustee for the benefit of holders of Revenue Bonds. Pursuant to the Indenture of Trust, the System has agreed to charge and collect tuition revenues and net auxiliary facility fees in an amount that is not less than 200% of the maximum annual debt service on Revenue Bonds.

Revenue Bonds issued during the years ended June 30, 2009 and 2008, including the results of any advance refunding of previously-issued debt, are as follows:

Debt issuance	Date of issue	Par value of debt issued	Premium on issuance	Par value of debt refunded	Reduction in future debt service	Deferred amount on refunding	Economic gain or (loss)
2008 Series A	6/26/2008	\$90,000,000	\$2,322,885

2009 Series A & B	6/26/2009	100,000,000	3,970,203				

As of June 30, 2009, previously issued debt removed from the System's financial statements through advance refunding transactions still outstanding was \$127,215,000.

As of June 30, 2009 and 2008, cash and cash equivalents and investments restricted by the terms of the Indenture of Trust totaled \$123,497,801 and \$120,641,804, respectively.

### **Revolving Loan Program Bonds**

Revolving Loan Program Bonds include debt issued pursuant to an Indenture of Trust, an agreement entered into with a trustee for the benefit of holders of the debt, dated April 1, 1995.

On August 8, 2003, the System issued \$65,000,000 of University System of Maryland Revolving Loan Program Bonds, 2003 Series A. The 2003 Series A Bonds were initially issued as auction rate reset securities, meaning interest is calculated on outstanding Revolving Loan Program Bonds using rate of interest determined through a weekly auction process. In April, 2008, the System purchased \$15,000,000 of the auction rate reset securities in response to failed auctions that were occurring for most issuers of auction rate reset securities as a result of the collapse of the credit insurance market. On June 26, 2008, the 2003 Series A Bonds in a principal amount of \$50,000,000 were converted from an auction rate mode to a Multiannual Rate which is determined annually as a result of an auction process. The Revolving Loan Program Bonds, 2003 Series A mature on July 1, 2023, and may be converted to an alternative rate at the option of the System.

As of June 30, 2009 and 2008, cash and cash equivalents in the amount of \$18,748,485 and \$21,712,982, respectively, was held by the trustee as unspent proceeds of the Revolving Loan Program Bonds.

### Certificates of Participation

The System issued \$17,800,000 of variable rate Certificates of Participation on October 30, 2000 to finance the construction of an addition to the School of Business at the University of Maryland, College Park. Payments of principal are made annually on June 1 through June 1, 2015. Interest is payable semiannually on December 1 and June 1. Interest charges are determined on a weekly basis by a remarketing agent, using the lowest rate that would permit the sale of the Certificates at par plus accrued interest. The System has the option of converting the Certificates to a daily rate, a multi-annual rate, a commercial paper rate, or a fixed rate.

### Other

Other debt and notes payable includes amounts borrowed to finance facilities, equipment acquisitions, a marine research vessel and other improvements designed to enhance energy efficiency savings.

The System is subject to Federal arbitrage laws governing the use of proceeds of tax-exempt debt.

Future principal and interest payments are as follows:

Year ending June 30,	<u>Auxiliary Facility and Tuition Revenue Bonds</u>		<u>Notes Payable and Other Long-term Debt</u>		Total Payments
	Principal	Interest	Principal	Interest

## 7. LEASES

### Obligations under capital leases agreements

The System leases a facility for the use of the University of Maryland Biotechnology Institute under an agreement recorded as a capital lease. The obligation is recorded at the present value of future minimum lease payments using a discount rate of 6.8%.

Future minimum payments on obligations under capital lease agreements are as follows:

<u>Year ending June 30,</u>	<u>Total</u>
2010	\$511,986
2011	511,986
2012	511,986
2013	511,986
2014	511,986
2015 – 2019	2,559,930
2020 – 2021	<u>767,978</u>
Total future lease payments	5,887,838
Less: Interest component	<u>(1,835,143)</u>
Obligations under capital lease agreements	<u><u>\$4,052,695</u></u>

### Operating leases

The System and its constituent units lease facilities and equipment under agreements reported as operating leases. Many of the leases provide for an optional extension of the terms of the agreements and increases in payment amounts based on changes in indices such as the Consumer Price Index.

Future minimum payments on operating leases with an initial or remaining noncancelable term in excess of one year are as follows:

<u>Year ending June 30,</u>	<u>Minimum Annual Lease Payments</u>
2010	\$13,218,805
2011	10,346,802
2012	8,673,742
2013	7,459,757
2014	7,094,106
2015 – 2019	26,257,739
2020 – 2024	13,783,736
2025 - 2029	<u>93,775</u>
Total	<u><u>\$86,928,462</u></u>

Operating lease expenditures for the years ended June 30, 2009 and 2008, were \$20,252,111 and \$16,196,174, respectively.

The System has entered into lease agreements with developers at seven of its institutions. These agreements provide the developers the use of System land for periods of 30 to 40 years. In each agreement, the developer will construct and manage the properties to provide housing services to students. Historical cost values of the disparate tracts of land leased to developers for use in providing student housing have not been calculated as each individual tract is a small portion of land acquired at varying points in time for institutional use and purposes.

## **8. OTHER POSTEMPLOYMENT BENEFITS**

Members of the State Retirement and Pension System of Maryland (the State System) and their dependents are provided postemployment health care benefits through the State Employee and Retiree Health and Welfare Benefits Program (Plan). The Plan is a cost sharing defined benefit healthcare plan established by the State Personnel and Pensions Article, Section 2-501 through 2-516 of the Annotated Code of Maryland. The Plan is self-insured to provide medical, hospitalization, prescription drug and dental insurance benefits to eligible state employees, retirees, and their dependents. The State does not distinguish employees by employer/State agency. Instead, the State allocates the postemployment health care costs to all participating employers.

Financial information for the Plan is included in the State of Maryland Comprehensive Annual Financial Report, which can be obtained from the Comptroller of Maryland, Louis L. Goldstein Treasury Building, Annapolis, MD 21404.

A separate actuarial valuation is not performed by the System. The System's only obligation to the Plan is its required annual contribution, which it has fully funded during the years ended June 30, 2009 and 2008. The amounts contributed for the years ended June 30, 2009 and 2008, were \$24,346,800 and \$63,872, respectively.

## **9. RETIREMENT AND PENSION PLANS**

Most System employees participate in the State Retirement and Pension System of Maryland (the State System), which is an agent, multiple-employer public employee retirement system. While the State System is an agent, multiple-employer public employee retirement system, the System accounts for the plan as a cost-sharing multiple-employer public employee retirement system, as a separate valuation is not performed for the System, and the only obligation to the plan is its required annual contributions.

The State System includes four pension and retirement plans that System employees participate in:

- Teachers Retirement Systems
- Teachers Pension Systems
- Employees Retirement Systems
- Employees Pension Systems

The State System prepares a Comprehensive Annual Financial Report, which can be obtained from the State Retirement and Pension System at 120 East Baltimore Street, Suite 1600, Baltimore, MD 21202.

System employees may alternatively elect to participate in an optional retirement program.

## **State Systems**

### ***Plan Description***

The State System are defined benefit plans with unfunded accrued actuarial liabilities. The State System, which are administered in accordance with the State Personnel and Pensions Article of the Annotated Code of Maryland, are managed by a Board of Trustees, and are included in the State of Maryland financial reporting entity.

All plan benefits are specified by the State Personnel and Pensions Article of the Annotated Code of Maryland. Retirement allowances are computed using both the highest three years' average final salary (AFS) and the actual number of years of accumulated creditable service. Pension allowances are computed using both the highest three consecutive years' AFS and the actual number of years of accumulated creditable service. Various retirement options are available under each system which ultimately determines how a retiree's benefit allowance will be computed. Some of these options require actuarial reductions based on the retiree's and/or designated beneficiary's attained age and similar actuarial factors.

### ***Funding Policy***

The System's required contributions are based upon actuarial valuations. Effective July 1, 1980, in accordance with the law governing the State System, all benefits of the State System are funded in advance. The aggregate entry age normal cost method is the actuarial cost method used.

Both the System and covered employees are required by State statute to contribute to the State System. The contribution from the employees is 5% for participants in the State System retirement plans (with a 5% limit on the annual cost of living allowance and 7% for those who elect a limit on the cost of living allowance commensurate with the Consumer Price Index); and 2% for participants in the State System pension plans. Contributions are deducted from participant's salary and wage payments and are remitted to the State System on a regular, periodic basis.

The System made its required contributions during the years ended June 30, 2009, 2008, and 2007 of \$56,298,536, \$53,366,248, and \$40,168,172, respectively.

### **Optional Retirement Program**

Some employees participate in the optional retirement programs, which are defined contribution money purchase plans funded currently each year and invested in specific funds offered by one of three vendors. In defined contribution plans, benefits depend solely on amounts contributed plus investment earnings. Qualified employees are eligible to participate from the date of employment.

State legislation provides that the System contribute 7.25% of covered employees' annual salaries each month. The System's contribution along with that of the employee is immediately and fully vested.

The contributions for the year ended June 30, 2009 were \$124,674,313, which consisted of \$64,117,243 from the System and \$60,557,070 from employees. The contributions for the year ended June 30, 2008 were \$122,576,897, which consisted of \$60,933,753 from the System and \$61,643,144 from employees from employees

### **Major component units**

The University System of Maryland Foundation, Inc. maintains a defined contribution plan for certain personnel provided by TIAA-CREF. The University System of Maryland Foundation, Inc. contributes 7.25% of the employee's compensation to the plan. In addition, eligible employees are entitled to make voluntary contributions to the plan. Total pension expense for the years ended June 30, 2009 and 2008 was approximately \$234,017 and \$183,019, respectively.

## **10. CONSTRUCTION COMMITMENTS**

The estimated costs to complete construction in progress as of June 30, 2009 is \$230,539,000, of which \$75,799,000 is to be funded from Revenue Bond proceeds, \$96,728,000 is to be derived from State appropriations and grants, and \$58,012,000 to be provided from System funds.

## **11. CONTINGENT LIABILITIES**

The University of Maryland College Park has entered into future purchase commitments for natural gas, as a means of hedging its risk against fluctuations in price of an important fuel commodity. As of June 30, 2009 and 2008, the institution had entered into open contracts for the purchase of \$1,997,395 and \$17,728,110, respectively, of natural gas, to be delivered monthly through May 2011.

The System is involved in a number of legal actions that arise in the normal course of its operations. In the opinion of management, based on the advice of the State Attorney General, such actions, as well as any exposure to unasserted claims, will not have a material adverse effect on the System's financial position.

## **12. RISK MANAGEMENT**

The System participates in State-wide self-insurance programs for many forms of risk of loss, including general liability, property and casualty, workers' compensation, environmental and anti-trust liabilities, as well as certain employee health benefit programs.

The System remits premiums to the State, to cover costs of claims servicing and claims payments. The premiums are based on a percentage of annual payroll or are based on average loss experience, taking into account recent trends in actual claims experience, and providing for catastrophic losses.

The System records a liability when it is probable that a loss has been incurred and the amount of that loss can be reasonably estimated. Liabilities recorded include a provision for claims incurred but not reported. Because actual claims liabilities depend on such complex factors such as inflation, changes in legal doctrines, and damage awards, actual claims could differ from estimates. Claims liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors. Liabilities for incurred workers' compensation losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their present value using a 4% discount rate. The provision for workers' compensation is based upon a separately determined actuarial valuation for the fiscal years ended June 30, 2009 and 2008. Settlement amounts have not exceeded insurance coverage levels for the years ended June 30, 2009, 2008, or 2007.

As of June 30, 2009 and 2008, the System has recorded \$27,879,000 and \$27,570,000 in liabilities associated with workers' compensation, respectively.

### **13. SUBSEQUENT EVENTS**

#### **Advance Refunding of Revenue Bonds**

On July 6, 2009, the System issued \$31,275,000 of 2009 Refunding Series C University System of Maryland Auxiliary Facility and Tuition Revenue Bonds. The 2009 Series C bonds consist of serial bonds maturing through the year ended June 30, 2020 with stated rates of interest from 2.5% to 4%, and were issued at an aggregate premium of \$1,493,008. The proceeds of the 2009 Series C bonds are to be used to advance refund \$3,850,000 of the 1997 Series A bonds, \$23,525,000 of the 1999 Series A bonds, and \$4,375,000 of the 2000 Series A bonds. The 2009 Series C bonds advance refunding will reduce future debt service by \$2,224,761 and result in an economic gain of \$1,813,416.

On October 7, 2009, the System issued \$56,045,000 of 2009 Refunding Series D University System of Maryland Auxiliary Facility and Tuition Revenue Bonds. The 2009 Series D bonds consist of serial bonds maturing through the year ended June 30, 2022 with stated rates of interest from 2% to 4%, and were issued at an aggregate premium of \$3,899,582. The proceeds of the 2009 Series D bonds are to be used to advance refund \$16,510,000 of the 2001 Series A bonds, \$16,410,000 of the 2001 Series B bonds, \$6,595,000 of the 2002 Series A bonds, and \$15,840,000 of the 2003 Series A bonds. The 2009 Series D bonds advance refunding will reduce future debt service by \$4,507,626 and result in an economic gain of \$4,014,543.

## UNIVERSITY SYSTEM OF MARYLAND

### NOTES TO SUPPLEMENTAL DATA YEARS ENDED JUNE 30, 2009 AND 2008

---

#### ACCOUNTING AND REPORTING PRACTICES

##### **Supplemental data reporting units**

University System of Maryland Office (System Office), composed of the offices of the Chancellor and Vice Chancellors and their respective staffs, provides central executive and administrative services and supports and coordinates the efforts of the entire System. The expenses incurred in connection with these activities have not been allocated to the other units of the System and accordingly have been included in the financial records of the System Office.

##### **Facilities maintenance expenses**

Certain expenses for facilities management for the System Office and the University of Maryland University College are included in the financial records of University of Maryland, College Park.

##### **System-wide financing arrangements**

The System constructs, acquires, and renovates plant facilities using the proceeds of Revenue Bonds and other financing arrangements. The proceeds of System-wide financing arrangements are used in accordance with Board authorizations, which specify the projects for which the funds are to be used. Unexpended proceeds and a proportionate share of the outstanding debt obligation are reported on the financial records of the System Office.

Institutions are obligated to provide a proportionate share of the principal and interest payments attributable to auxiliary enterprises projects financed using the proceeds of System-wide financing arrangements. Currently, each instructional institution, with the exception of the University of Maryland University College, provides a portion of the debt service attributable to academic facilities. To the extent that an instructional institution provides (or receives) resources for debt service for academic facilities (and the proportionate share of the outstanding debt obligation) recorded on another System institution or unit, such amounts are reported as a Transfer To / (From) Other University System of Maryland Institutions on the Statement of Revenues, Expenses, and Changes in Net Assets.
