INDEPENDENT AUDITORS' REPORT

Board of Regents University System of Maryland Adelphi, Maryland

Report on the Audit of the Financial Statements Opinions

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component units of the University System of Maryland (the System), a component unit of the State of Maryland, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the System's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of the System as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the University System of Maryland Foundation, Inc., the University of Maryland College Park Foundation, Inc., the University of Maryland Baltimore Foundation, Inc., University of Maryland Faculty Physicians, Inc., Bowie State University Foundation, Inc., Towson University Foundation, Inc., Frostburg State University Foundation, Inc., University of Baltimore Foundation, Inc. and University Properties, Inc., Salisbury University Foundation, Inc., University of Maryland Orthopaedic Associates, P.A., University of Maryland Pediatric Associates, P.A., and UMGC Ventures, Inc. and Subsidiaries (component units), which represent 0.4%, 0.5%, and 0.7%, respectively, of the assets, net position, and revenues of the System's business-type activities and 100% of the net assets, net assets, and revenues of the aggregate discretely presented component units as of June 30, 2024. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as it relates to the amounts included for the component units, are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the System and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of 100% of the discretely presented component units were not audited in accordance with *Government Auditing Standards*.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair

presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the System's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the System's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the System's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the various schedules of Proportionate Share of Net Pension Liability, Contributions to the Teachers Pension System and the Employees Retirement System, and Contributions for Other Postemployment Benefits, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial

reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the System's basic financial statements. The Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, and Statement of Cash Flows for University of Maryland, Baltimore, University of Maryland, College Park, Bowie State University, Towson University, University of Maryland Eastern Shore, Frostburg State University, Coppin State University, University of Baltimore, Salisbury University, University of Maryland Global Campus, University of Maryland, Baltimore County, University of Maryland Center for Environmental Science, and the University of Maryland System Office; the Combining Statement of Financial Position, Nonmajor Component Units; and the Combining Statement of Activities, Nonmajor Component Units (the supplementary schedules) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS by us and other auditors. In our opinion, the supplementary schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2024, on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering System's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2024

Management of the University System of Maryland (the System) provides the readers of the System's financial statements with this narrative overview and analysis of the financial activities of the System for the years ended June 30, 2024 and 2023.

Financial Highlights

- Unrestricted net position increased by \$104,958,421 for the year ended June 30, 2024, compared to a increase of \$267,663,782 for the year ended June 30, 2023.
- State appropriations for the System increased by 13.2% for the year ended June 30, 2024.
- Tuition and fees, after deducting scholarship allowances, increased by \$14,829,146 or 1.1% for the year ended June 30, 2024. During the year ended June 30, 2023, net tuition and fees, increased by \$10,119,546 or 0.7%.
- For the year ended June 30, 2024, investment income on Endowment assets was \$40,898,414, representing an investment return of 9%. Investment income on Endowment assets amounted to \$26,044,676, an investment return of 6%, for the year ended June 30, 2023.
- Three laws were signed into effect during the years ended June 30, 2020 and 2021, which provide financial support to individuals, governments and businesses experiencing financial hardship associated with the coronavirus pandemic:
 - On December 27, 2020, The Coronavirus Response and Relief Supplemental Appropriation Act, 2021 (CRRSAA) was signed into law. The American Rescue Plan (ARP) was signed into law on March 11, 2021. Each of these laws provided funding for the Higher Education Emergency Relief Fund(HEERF).
 - These acts, along with the Coronavirus Aid, Relief, and Economic Security Act (CARES act), provide for potential funding of \$574,194,991 to System institutions to be used for pandemic related student and institutional aid that may be accessed or used through fiscal year 2024.
 - The System recognized \$8,582,598 and \$59,342,332 of nonoperating grant revenues associated with amounts awarded directly, or through the state of Maryland, of COVID relief funding for the years ended June 30, 2024 and 2023, respectively.

Overview of the Financial Statements

The System's financial statements consist of three basic financial statements and the notes that provide information on the accounting alternatives used, financial statements for discretely presented component units, and explanatory information and detail on certain financial statement elements. The three basic financial statements are the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows.

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2024

The *Statement of Net Position* presents information on the System's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position, all as of the end of the reporting period. Net position represents the difference between assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources, and is detailed into classifications that help readers understand the constraints that the System must consider in making decisions on expending assets. Over time, changes in net position can help in understanding whether the financial condition of the System is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Net Position presents information on the changes in net position during the year. All changes in net position are reported as soon as the underlying event takes place, regardless of the timing of the related cash flows. Thus, revenues and expenses are recorded for some items that will result in cash flows in future fiscal years (for example tuition and fees owed by students, or vacation earned by employees but not used as of the date of the financial statements).

The *Statement of Cash Flows* presents information on sources and uses of cash during the year. This statement details the changes in cash and cash equivalents from the amounts reported at the end of the preceding year, to the amounts reported in the Statement of Net Position as of the end of the current year. Sources and uses are organized into operating activities, noncapital financing activities, capital and related financing activities, and investing activities.

The System's financial statements include all accounts and balances of the System (considered the primary government, in accounting terms), as well as 12 legally-separate and distinct entities for which the System is financially accountable, which are considered component units. Of the 12 component units, four are considered major component units due to their significance in terms of size.

The focus of this Management's Discussion and Analysis is on the System itself. Reference should be made to the separately audited financial statements of the component units for additional information.

Financial Analysis

As of June 30, 2024, the System's financial health remains strong, with assets and deferred outflows of resources exceeding liabilities and deferred inflows of resources by \$8,192,442,677, shown on the Statement of Net Position as total net position. This compares with total net position of \$7,833,951,523 as of June 30, 2023 As suggested earlier, when viewed over time, net position may be useful as an indicator of financial health.

For the year ended June 30, 2024, total net position increased by \$358,491,154. While net investment in capital assets increased by \$232,157,324, unrestricted net position increased by \$104,958,421 and restricted net position categories increased by \$21,375,409.

For the year ended June 30, 2023, total net position increased by \$620,655,344. Net investment in capital assets increased by \$319,414,323, unrestricted net position increased by \$267,663,782 and restricted net position categories increased by \$33,577,239.

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2024

The table below presents summary-level information of the System's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position as of June 30, 2024 and 2023.

	2024	2023
ASSETS AND DEFERRED OUTFLOWS OF RESOURCES Current and noncurrent assets Capital assets, net	\$ 4,437,543,665 7,748,905,895	\$ 4,291,346,169 7,603,663,404

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2024

The table below presents summary-level information on revenues, expenses, and other changes in the System's net position for the years ended June 30, 2024 and 2023.

	2024	2023
Operating revenues Operating expenses	\$ 4,270,398,135 6,860,548,831	\$ 4,134,278,781 6,262,627,295
Operating loss	(2,590,150,696)	(2,128,348,514)
State appropriations Other nonoperating revenues, net	2,211,017,153 477,208,146	1,953,912,133 477,613,770
Total nonoperating revenues	2,688,225,299	2,431,525,903
Income (loss) before other revenues	98,074,603	303,177,389
Other revenues	260,416,551	317,477,955
Increase in net position Net position, beginning of year	358,491,154 7,833,951,523	620,655,344 7,213,296,179
Net position, end of year	\$ 8,192,442,677	\$ 7,833,951,523

The System's operating revenues arise from activities associated with its core mission: education, research, and public service.

For the years ended June 30, 2024 and 2023, operating revenues, which under the definitions used by GASB, excludes state appropriations, are detailed below:

	2024		2023		
	\$	%	\$	%	
Tuition and fees, net	\$ 1,389,023,285	32.6 % \$	1,374,194,139	33.2 %

Total	\$ 4,270,398,135	100.0 % \$	4,134,278,781	100.0 %	

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2024

For the years ended June 30, 2024 and 2023, operating expenses are detailed below:

	2024	2024		
	\$	%	\$	%
Instruction	\$ 1,712,461,394	25.0 % \$	1,600,428,234	25.4 %
Research	1,370,516,611	20.0	1,243,956,697	19.9
Public service	620,615,062	9.0	573,243,117	9.2
Academic support	651,970,628	9.5	558,525,052	8.9
Student services	431,811,901	6.3	358,122,854	5.7
Institutional support	720,404,131	10.5	617,157,870	9.9
Operation and maintenance of plant	475,944,405	6.9	468,746,425	7.5
Scholarships and fellowships	129,967,770	1.9	137,101,779	2.2
Auxiliary enterprises	746,856,929	10.9	705,345,267	11.3
Total	\$ 6,860,548,831	100.0 % \$	6,262,627,295	100.0 %

Operating expenses are detailed by (1) employee costs, (2) payments to suppliers, contractors and other, and (3) depreciation expense in the notes to the financial statements, in order to provide an alternative presentation of operating expenses.

For the years ended June 30, 2024 and 2023, increases in total employee payments of \$423,456,020 and \$295,726,860, respectively, represent the largest component of the overall increase in operating expenses over the prior year. For 2024 and 2023, the largest increases associated with employee payments were for instruction and research, respectively.

Capital Asset and Debt Administration

The System continually makes investments in facilities necessary to achieve long-term objectives resulting from:

- State-wide public policy goals,
- System-wide strategic planning,
- institutional facilities master planning,
- projected enrollment growth,
- projected research space needs, and
- maintenance and renewal needs for existing facilities.

Funding sources for additions to capital facilities and equipment for the last two fiscal years ended June 30, were:

	2024	2023
State of Maryland debt proceeds	\$258,236,816	\$305,138,195
System debt proceeds	117,633,846	
System cash balances and donations	236,088,738	459,755,597
Total	\$611,959,400	\$764,893,792

2024

2023

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2024

Over the past three fiscal years ended June 30, major projects completed or placed in service are as follows:

Project	oject Institution	
Year ended June 30, 2024 College of Health Professions Chemistry Building	Towson University University of Maryland College Park	\$192,432,074 120,369,338
Year ended June 30, 2023 School of Pharmacy & Health Professions College of Business	University of Maryland Eastern Shore Coppin State University	\$104,739,000 45,833,000

The System periodically issues Revenue Bonds to fund the construction, acquisition, and renewal and replacement of facilities, or refinance previously issued Revenue Bonds to realize lower current interest rates. The System did not issue Revenue Bonds during the year ended June 30,2023. During the year ended June 30,2024, the System issued the following Revenue Bonds:

Debt issuance	Date of issue	Purpose	Total Par Value Issued	Present Value of Future Debt Service Savings
2024 Series A	2/29/2024	Financing construction and	\$ 73,295,000	
		facilities renewal		
2024 Series B	2/29/2024	Refinancing (Taxable)	29,690,000	\$ 909,272

The System continually pursues opportunities to reduce its overall effective cost of capital financing, and as conditions in the financial markets allow, refinances previously issued debt with new debt at lower interest costs.

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2024

Economic Factors and Next Year's Budget and Rates

Enrollment demand, availability of funding for contracts and grants, and State of Maryland support, through both operating and capital appropriations, are the three most significant drivers of the System's resource base.

Across all student categories, enrollment is expected to continue to increase over the next ten years, with approximately 12.9% more fulltime equivalent students anticipated by the fall 2033. While preliminary fall 2024 enrollment indicates a increase in fulltime equivalent enrollment of approximately 0.03%, the longterm projection remains a picture of continued but slower growth.

The University of Maryland, College Park, the University of Maryland, Baltimore, and the University of Maryland, Baltimore County each have considerable numbers of faculty that pursue research grants and other sponsored funding arrangements. Indirect cost recoveries associated with contracts and grants are an important funding source for institution's administrative costs. The Federal Budget Control Act places limits on Federal government spending commonly referred to as sequestration. These limits have constrained Federal spending on research activities, will reduce indirect cost recoveries generally, and will continue, unless Congress and the President agree upon and enact legislation that relieves the constraints on governmental spending currently in place.

As a region with a significant Federal government employee population, the potential for significant reductions in Federal spending in all likelihood would have serious implications for State tax revenues, both from income as well as sales taxes. The State government closely monitors revenue receipts and revises projections on a quarterly basis. As an economic engine for the entire state and region, System officials point out the impact that proposed reductions of State funding provided to higher education would have on statewide economic activity and workforce development.

Personnel costs account for more than two-thirds of the System's noncapital spending. Healthcare costs and the adoption of a statewide funding strategy for providing for retiree's healthcare costs are expected to be significant considerations for the System's future spending levels.

Requests for Information

This financial report is intended to provide a general overview of the System's finances. Questions concerning any of the information provided in this report, or requests for additional information should be addressed to the Office of the Vice Chancellor for Administration and Finance, 3300 Metzerott Road, Adelphi, MD 20783.

1. ORGANIZATION AND PURPOSE

The University System of Maryland (the System) is a component unit of the State of Maryland (the State) and is governed by its Board of Regents (the Board).

The System comprises eleven degree-granting institutions, one research entity and an administrative unit. Its degree-granting institutions provide a full range of undergraduate, graduate, professional and continuing education opportunities for students. Its research entity conducts basic and applied research, and transfers new technology to constituencies. The administrative unit includes the System Chancellor and staff who support the Board.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed by the System are summarized below.

Reporting Entity

The financial statements of the System include all funds and organizations included in the legal entity encompassed by the System, and other legally separate entities for which the System is financially accountable or which otherwise meet the criteria established by the Governmental Accounting Standards Board (GASB). Amounts held in System accounts on behalf of separately organized entities are included as assets, with a corresponding liability.

The System has recognized, as affiliated foundations, nine organizations created and operated in support of the interests of the System or any of the institutions that comprise the System. Each of these affiliated foundations are considered to (1) receive or hold economic resources that are to be used for the benefit of the System or its institutions, (2) receive or hold economic resources which the System or its institutions are entitled to or otherwise have the ability to access, and (3) are significant to the financial statements of the System or the institutions with which the foundation is affiliated. As a result, each of the nine affiliated foundations meet the criteria for inclusion in the financial reporting entity, and thus each of the affiliated foundations are shown in a discrete presentation.

The University System of Maryland Foundation, Inc. (the USMF), the University of Maryland College Park Foundation, Inc., and the University of Maryland Baltimore Foundation, Inc. are considered major component units due to the significance of the financial statement amounts to the System and its financial statements.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

The following affiliated foundations are considered nonmajor component units:

Bowie State University Foundation, Inc.
Towson University Foundation, Inc.
Frostburg State University Foundation, Inc.
Coppin State University Development Foundation, Inc.
University of Baltimore Foundation, Inc. and University Properties, Inc.
Salisbury University Foundation, Inc.

During the year ended June 30, 2024, affiliated foundations distributed approximately \$122,267,673 to the System and its institutions for both restricted and unrestricted purposes.

Three legally separate entities (practice plans) that operate under the Medical Service Plan (MSP) of the University of Maryland Medical School (School of Medicine) are also recognized as discretely presented component units of the System due to the System's ability to appoint the majority of the governing boards of these organizations, the System's ability to impose its will on these organizations, and the significance of these organizations' financial statement amounts to the System and its financial statements. Two of the organizations, University of Maryland Pediatric Associates, P.A. (Pediatrics) and University of Maryland Orthopaedic Associates, P.A. (Orthopaedics) are professional associations organized under the Professional Service Corporation Act to engage in the practice of medicine under the MSP of the School of Medicine. The MSP sets forth accounting and operational guidlines for all professional association members. One of the organizations, University of Maryland Faculty Physicians, Inc. (FPI) is the umbrella corporation deignated by the MSP to provide oversight and support to the professional association members. Based upon the significance of their respective financial statement amounts to the System and its financial statements, FPI is considered a major component unit of the System and Pediatrics and Orthopaedics are considered nonmajor component units.

Under the MSP of the School of Medicine, medical services are rendered by members of the faculty in connection with their duties to provide clinical instruction for medical students and post-graduate students and to deliver healthcare to the general public and, without charge, to the indigent on behalf of the School of Medicine. The MSP also establishes the Medical Service Plan Trust Fund, the Medical School Enrichment Fund, and the Department Development Funds, which are administered by FPI. During the year ended June 30, 2024, practice plans distributed approximately \$18,245,774 to the School of Medicine for unrestricted purposes.

Each of the System's affiliated foundations and practice plans are nongovernmental entities that prepare financial statements using the accounting standards promulgated by the Financial Accounting Standards Board (FASB). As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to their financial information in the System's financial reporting entity for these differences.

Complete financial statements of the affiliated foundations and practice plans may be requested from the System's Office of the Comptroller at 3300 Metzerott Road, Adelphi, MD 20783.

The System has also recognized as a blended component unit a not-for-profit organization created by the University of Maryland Global Campus (UMGC). The entity, named UMGC Ventures, Inc., is organized to support UMGC and other higher education institutions through provision of support and administrative services.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

Beginning cash and cash equivalents	25,134,686
Ending cash and cash equivalents	\$ 14,967,002

Measurement Focus and Basis of Accounting

The System is a special-purpose governmental entity engaged only in business-type activities. Accordingly, the System's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenue is recognized when earned, and expenses are recorded when an obligation has been incurred. All significant transactions among departments, campuses, and auxiliary units of the System have been eliminated.

Operating and Nonoperating Revenues and Expenses

Operating revenues and expenses are generally associated with those activities that relate directly to the core activities of instruction, research and public service that form the essence of the System's mission. Nonoperating revenues, expenses, gains and losses represent amounts that recur regularly but are not included in operating revenues and expenses. Accounting principles generally accepted in the United State of America define State appropriations as nonoperating revenue.

Cash and Cash Equivalents

Cash and cash equivalents include demand deposits with financial institutions, as well as highly liquid investments that are both readily convertible to known amounts of cash and are so near to their maturity that they present an insignificant risk of changes in value because of changes in interest rates. Only investments with an original maturity of three months or less satisfy the criteria for cash equivalents.

Investments

Investments are valued at fair value.

Inventories

Inventories are valued at cost, determined under the first-in, first-out method, which is not in excess of net realizable value.

Capital Assets

Property, plant, equipment, and books and materials which are part of a catalogued library, are stated principally at cost at the date of acquisition, or estimated acquisition value at the date of donation in the case of gifts. Personal property with an original cost of more than \$5,000 and outlays for real property in excess of \$250,000 are considered capital assets.

Generally, the cost of all capital assets other than land, certain inexhaustible improvements to land, and collections of works of art are assigned to expense over a set of useful lives specific to the type of asset, using a straight-line method of depreciation. The range of useful lives used for the major categories of capital assets is:

Infrastructure and land improvements 20 - 25 years Buildings and improvements 20 - 40 years Contents 3 - 15 years

Depreciation expense is assigned to operating expense based on the nature and use of the capital asset.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

Intangible right-to-use assets recognized under leases and Subscription-Based Information Technology Arrangements are initially recognized at the present value of future cash flows and amortized over the shorter of the lease or subscription term, or the useful life of the underlying asset.

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

Accrued Vacation Costs

Annual leave, including employer-related costs, for employees is accrued and recognized as an operating expense at rates based upon length of service and job classification and compensatory time based upon job classification and hours worked.

Unearned Revenues

Unearned revenue primarily includes amounts received from grants and contracts that have not been earned under the terms of the agreement and other revenue billed in advance of the event, such as student tuition and fees for housing and dining services.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher's Pension System (TPS) and the Employee Retirement System (ERS) and additions to/deductions from TPS and ERS' fiduciary net position have been determined on the same basis as they are reported by TPS and ERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit plan terms and provisions. Investments are reported at fair value.

Net Position

The System's resources are required to be classified and reported in the Statement of Net Position in the following categories: (a) Net investment in capital assets: capital assets net of accumulated depreciation and related outstanding debt balances attributable to the acquisition, construction, or improvement of those assets; (b) Restricted nonexpendable: net position restricted by externally imposed stipulations, not available for expenditure; (c) Restricted expendable: net position subject to externally imposed restrictions that can be fulfilled by actions of the System pursuant to those stipulations or that expire by the passage of time, and (d) Unrestricted: net position not subject to externally imposed stipulations but may be designated for specific purposes by action of management or the Board. When an expense is incurred that can be paid using either restricted or unrestricted resources, the System's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

Scholarship Allowances

The System recognizes scholarship allowances as the difference between the stated rates for tuition and fees and auxiliary services and the amount that is paid by the student and third parties on behalf of the student. Stipends and other payments made directly to students are reported as scholarship and fellowship expense.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Although management believes the estimates and assumptions are reasonable, they are based upon information available at the time the estimate or judgment is made and actual amounts could differ from those estimates.

Reclassifications

June 30, 2023 balances were reclassified between buildings & improvements and right-to-use buildings under lease agreements, including accumulated depreciation and amortization, in Note 6. Changes in Net Capital Assets to conform to the current year presentation.

3. CASH AND INVESTMENTS

Cash and cash equivalents

As of June 30, unrestricted cash and cash equivalents consisted of the following:

	2024
Cash and short-term investments on deposit with the State Treasurer Demand and time deposits	\$3,228,002,248 40,658,072
Total	\$3,268,660,320

The System does not have a formal policy addressing custodial credit risk.

As of June 30, 2024, the carrying amount of the System's demand and time deposits was \$40,658,072 and, as compared to bank balances of \$42,377,499. The difference is primarily due to items in-transit. Of the bank balances, \$25,919,317 was covered by Federal, private or foreign national government depository insurance, or was collateralized by a pledge of United States Treasury obligations held by the System's agents in the name of the System, and \$16,458,182 was uninsured and uncollateralized.

The Annotated Code of Maryland requires the System to maintain its cash balances on deposit with the State Treasurer, except for demand and time deposit accounts established to satisfy urgent cash requirements, assets associated with endowment funds or proceeds of System financing arrangements. The State Treasurer maintains State funds on a pooled basis in accordance with the Annotated Code of Maryland.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

The System has entered into agreements with trustees for the benefit and security of registered holders of certain debt obligations issued by the System. These agreements permit the System to invest amounts maintained in trust funds in:

- United States Treasury and agency obligations.
- Deposits, having a maturity of no more than 365 days, in any bank, savings institution or trust company to the extent such deposits are fully insured or collateralized.
- Commercial paper rated at least A-1 by Standard & Poor's Corporation (Standard & Poor's) and P-1 by Moody's Investors Service, Inc. (Moody's) having a maturity of no more than 270 days.
- Repurchase agreements.
- Obligations of any state or political subdivision rated by Standard & Poor's and Moody's in one
 of its two highest rating categories.
- Corporate obligations rated AAA by Standard & Poor's and Aaa by Moody's.

As of June 30, restricted cash and cash equivalents included:

	2024
Money market accounts – endowment fund uninvested cash Money market accounts – unspent proceeds of debt	\$ 49,629 78,853,947
Total	\$ 78,903,576

2024

Unspent proceeds and other restricted debt-related trust account balances and endowment fund uninvested cash balances are maintained in money market accounts rated AAA or equivalent by rating agencies.

Investments

In July 2005, the System transferred the proceeds of endowment investments, approximately \$197 million in fair market value at the time of the transfer, to the USMF, in exchange for an equivalent proportionate interest in the long-term investment portfolio managed by the USMF.

The System has entered into an agreement with the USMF to manage investment of the System's endowment funds. The agreement is for a term of five years, with renewable two-year extensions at the option of the System, unless notice of intent to terminate the arrangement is provided within 180 days prior to the expiration of the term. In the event of termination of the arrangement, funds invested with individual investment managers that have commitments from the USMF, to maintain investments for certain minimum time periods may not be returned to the System until those constraints have been satisfied. The per annum fee to be paid to the USMF for investment management services is 0.46% of the value of the managed funds as of December 31 of the previous fiscal year.

Investments in the USMF are accounted for as an open-ended mutual fund. Asset values, investment

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

gains and losses, and other portfolio-wide transactions are allocated based on the number of units or shares that each fund has relative to the total number of shares or units. Assets associated with the System's endowment funds are reported as Endowment Investments on the Statement of Net Position of the System, and Investments on the Statement of Financial Position of the USMF, with a corresponding liability reflecting the fair value of the System's interest in the investment portfolio.

The System discloses investment risks as follows:

Interest rate risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

The System has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial credit risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the System would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial risk if the securities are uninsured, are not registered in the name of the System, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the System's name. Endowment investments managed by the USMF are uninsured and are not registered in the name of the System, as they are a part of a commingled portfolio comprising proportionate interests of several different entities.

None of the System's restricted investments are exposed to custodial credit risk.

Credit risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The System is exposed to credit risk on its Endowment investments managed by the USMF.

Foreign currency risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The System is not exposed to any material amount of foreign currency risk.

Endowment investments

As of June 30, endowment investments consisted of the following, stated at fair value:

Corporate debt	\$ 7,200
Corporate equities	157,616
Assets invested with USMF	519,956,464
Total	\$520,121,280

2024

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

As of June 30, the net position balances of the fund groups making up the endowment were as follows:

	2024
Pure endowments Funds functioning as endowments Term endowments	\$167,433,776 347,107,576 5,579,928
Total	\$520,121,280

Assets associated with endowment funds are invested in accordance with the terms of donor agreements in those instances where such agreements place constraints on allowable investments.

A spending rule has been adopted by the Board to ensure that endowment funds retain a consistent level of purchasing power over time. The spending rule provides for a target rate of spending of 4.25% of a rolling twelve-quarter average market value of the endowment fund. The spending rule is reviewed periodically by the Finance Committee of the Board.

Net appreciation on investments of the pure endowment funds totaled \$121,370,863 as of June 30, 2024, respectively. Reinvestments of net appreciation are considered to be subject to donor spending restrictions if applicable, and accordingly, are reflected as a component of restricted, expendable net assets.

The Maryland Uniform Prudent Management of Institutional Funds Act governs the use of net appreciation, both realized and unrealized, of endowment investments. This law allows a governing board to appropriate for expenditure only those amounts in excess of the historic gift amount that are prudent, taking into consideration long and short term needs of the institution in carrying out its educational, charitable, or other eleemosynary purposes, its present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions.

Other investments

Other investments include an interest in a real estate partnership formed to facilitate the long-term development of a parcel of land owned by the University of Maryland College Park, and several investments in System-related start-up companies. The carrying value of partnership interests are assessed on an annual basis by reference to the reported value of the university's interest. The investments in University System-related start-up companies are valued at fair value as assessed by a review of the most recent financial statements, or an understanding of the current state of operations.

Allocation of investment income

Investment income is assigned to the accounting funds, including endowments, in proportions associated with investments held by the various accounting funds. For the year ended June 30, 2024 income attributed to unrestricted funds and restricted funds was:

 Unrestricted funds
 \$183,245,707

 Restricted funds
 17,030,434

 Total
 \$200,276,141

4. FAIR VALUE MEASUREMENTS

Generally accepted accounting principles define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement also establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. The following three-level hierarchy classifies the inputs used to determine fair value:

Level 1: Pricing inputs are quoted prices (unadjusted) available in active markets for identical investments as of the reporting date. Investments generally included in this category are listed equities and listed mutual funds.

Level 2: Pricing inputs are quoted prices for similar investments in active markets, quoted prices for identical or similar assets in markets that are not active, observable inputs other than quoted prices, and market corroborated data. Investments that are generally included in this category are fixed income securities.

Level 3: Pricing inputs are unobservable for the investment and must be developed using the best information available under the circumstances, which might include the System's own data. Investments that are generally included in this category are investments in private equity and investment funds as well as off-shore hedge funds.

System endowment investments are largely a proportionate interest in an investment portfolio managed by the USMF. As of June 30, 2024 the System also holds corporate debt investments of \$7,200 that are classified as level 3 investments, and corporate equity investments of \$157,616 that are classified as level 1 investments.

As of June 30, 2024, System other investments include partnership and equity interests of \$31,996,777 that are classified as level 3 investments. As of June 30, 2024, other investments include mutual funds and short-term securities of \$20,847,450 that are classified as level 1 investments.

Major component units

The USMF invests funds on behalf of the System and several other System component units. The majority of the amounts reported as investments by the University of Maryland College Park Foundation, Inc., and the University of Maryland Baltimore Foundation, Inc. are invested by the USMF.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

The following table shows the USMF's investments using the three-level fair value hierarchy as of June 30, 2024:

		June 30,	Fair Va	lue Measuremei	nts
Investments by fair value level		2024	Level 1	Level 2	Level 3
Money market funds and short-term					
investments	\$	64,099,000 \$	64,099,000		
ETF's and mutual funds		326,002,000	326,002,000		
Common stock		2,449,000	2,449,000		
Separately managed accounts		451,817,000	\$	365,984,000 \$	85,833,000
Total investments by fair value level		844,367,000 \$	392,550,000 \$	365,984,000 \$	85,833,000
Investments measured at net asset value (NAV)		_			
Intermediate assets		224,065,000			
Public equity		366,276,000			
Liquid credit		90,941,000			
Diversifying strategies		108,387,000			
Private risk assets		738,945,000			
Total investments measured at NAV		1,528,614,000			
Total investments		2,372,981,000			
Due to other System component units	((1,200,123,000)			
Total USMF investments reported		1,172,858,000			
Due to the System .		(519,956,464)			
Total USMF investments	\$	652,901,536			

System component unit investments managed by the USMF of \$1,200,123,000 were eliminated from the USMF financial statements as of June 30, 2024.

Investments measured at net asset value

Private investments measured at NAV consists of investments in partnership-based structures where the general partner or investment manager generally values their investments at fair value. The fair value of these investments has been estimated either by using the NAV per share of the investments or the ownership percentage of the fund's net assets as allowed as a practical expedient under fair value guidance. The private investments offer exposure to intermediate assets, public equity, liquid credit, diversifying strategies and/or private market, through the private investment structure as further discussed within the footnotes.

Due to the limited availability of valuation data as of the USMF's year-end, management utilizes the most recent NAV or ownership percentage which may be on a month to quarter lag. Management adjusts the net asset value or ownership percentage to be more representative of the year-end fair value by including capital contributions, and redemptions or returns of capital during the gap period. Management will also adjust for known performance adjustments for private investments that hold publicly traded securities. Performance adjustments ranged from 0.12% to 4.42% for those investments on a one-month lag. No performance adjustments are made to investments on a quarter lag given the unobservability of investment performance at the time of report issuance.

USMF believes the carrying value of private investments in the statements of financial position is a reasonable estimate of its ownership interest in the private investment funds. As part of the USMF's overall valuation process, management evaluates these third-party methodologies to ensure that they are representative of exit prices in the security's principal markets. Management performs a retroactive review of its fair value estimates by comparing to actual year-end statements received subsequent to year-end.

As of June 30, 2024, unfunded commitments within the private investments measured at NAV equaled approximately \$552 million.

The following table shows FPI's investments using the three-level fair value hierarchy as of June 30, 2024:

	Fair Va	lue Measurer	nents		
Investments by fair value level and NAV	Level 1	Level 2	Level 3	NAV	Total
Cash equivalents Corporate bonds U.S. government and agency securities Common stocks, preferred	\$ 243,655			\$ 8,377,365 \$ 8,497,947 19,476,618	8,621,020 8,497,947 19,476,618
stocks and mutual funds	1,534,342			124,094,335	125,628,677
Total investments by fair value level and NAV	\$ 1,777,997			\$ 160,446,265 \$	162,224,262

These investments include the assets limited as to use set aside at the discretion of the board of directors for self-insurance trust arrangements which includes assets of the Maryland Medicine Comprehensive Insurance Program (MMCIP) Self-insurance Trust. These portfolios contain Level 1, Level 2 and alternative investments. As of June 30, 2024, the majority of these investments are subject to 30 day or

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

less notice requirements and are available to be redeemed on at least a monthly basis

Investments reported at fair value above are reflected in the following components in the consolidated statements of financial position s as of June 30, 2024:

	Α	ssets limited			Monies held on behalf of		
		as to use	Investme	ents	others		Total

7. DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

The composition of deferred outflows of resources as of June 30, was summarized as follows:

	2024
Unamortized loss on refundings of debt Deferred outflows related to asset retirement obligations Deferred outflows related to the pension liability	\$ 1,889,845 10,640,037 473,869,714
Total deferred outflows of resources	\$486,399,596

The composition of deferred inflows of resources as of as of June 30, was summarized as follows:

Public-private partnership receipts	\$226,929,964
Deferred inflows related to leasing activity	18,648,322
Deferred inflows related to the pension liability	74,145,765
Total deferred inflows of resources	\$319,724,051

8. PUBLIC-PRIVATE PARTNERSHIPS FOR STUDENT HOUSING

The System has entered into long-term leases of university-owned land, and other agreements with a quasi-governmental entity to finance, construct, and manage student housing projects at seven of the System's institutions. These agreements satisfy the accounting criteria established to be considered service concession arrangements.

Under the terms of the ground leases, the System transfers rights to university-owned property for a term of 40 years to the quasi-governmental issuer of debt (the 'project owner'). The project owner contracts with a developer to build student housing on the property. The project owner also contracts with an operator that manages the facility on behalf of the project owner. Each student housing project is financed using tax-exempt debt that limits the use of the project to activities that support the institution. The operator charges and collects rent from the students, and pays the operating costs and debt service associated with the project. The residual cash flow from the project, after paying all operating costs and management fees, is paid to the university as the annual ground lease payment. The institution has the ability to approve what services the operator is required to provide and the rates that can be charged.

Upon final payment of the outstanding debt associated with the project, or upon termination of the ground lease, whichever is sooner, the project owner's rights to use the land and ownership of the project transfers to the university.

As of June 30, the following amounts associated with public-private partnerships were reflected on the Statement of Net Position:

	2024
Capital assets, net – Buildings & improvements	\$232,183,052
Deferred service concession arrangement receipts	226,929,964

9. ASSET RETIREMENT OBLIGATIONS

The System owns and operates facilities and equipment subject to certain legal and regulatory requirements to perform asset retirement activities.

A nonpower training nuclear reactor operated at the University of Maryland College Park is subject to statutory and regulatory requirements promulgated by the U.S. Nuclear Regulatory Commission (the NRC) under Title 10 of the Code of Federal Regulations (the CFR). Estimated asset retirement obligations for the reactor are \$14,762,674 as of June 30, 2024. The reactor had a remaining useful life of 15 years as of June 30, 2024.

The University of Maryland College Park is periodically required by the CFR to provide various disclosures to the NRC in order to maintain the operating license for the reactor, including, but not limited to, projected operating costs, projected decommissioning costs, and funding assurances. The University of Maryland College Park was in compliance with all such requirements as of June 30, 2024.

The System also owns and operates various equipment assets, including gamma cell irradiators and underground oil tanks, that are also subject to statutory or regulatory asset retirement obligations of individually nominal dollar values. All such assets were fully depreciated as of June 30, 2024.

Asset retirement obligations were estimated based upon the historical decommissioning costs of similar assets, stated in current dollars using the Implicit Price Deflator issued by the U.S. Department of Commerce, using current personnel costs, and a contingency factor of 25%.

Total asset retirement obligations of \$16,848,902, as of June 30, 2024, are included in accounts payable and accrued liabilities. The System is financially prepared to fund and satisfy all asset retirement obligations when required.

10. RESTRICTED NET POSITION

Restricted net position as of June 30, were as follows:

	2024
Nonexpendable	
Scholarships and fellowships	\$ 21,495,617
Research	7,637,941
Other	16,929,356
Total restricted nonexpendable net position	\$ 46,062,914
Expendable

Other	212,338,000	783,941,753	345,265,479
Total net assets with donor restrictions	\$ 484,024,000	\$1,108,171,000	\$ 448,669,741

11. REVENUE BONDS AND NOTES PAYABLE

The System finances the construction, renovation and acquisition of certain facilities and equipment through the issuance of debt obligations. State law limits the aggregate principal amount of debt outstanding and the present value of future minimum lease payments on lease obligations for real property to no more than \$1,700,000,000.

As of June 30, revenue bonds and notes payable consisted of the following:

	2024
Revenue Bonds, net Other	\$1,190,904,567 30,493,516
Revenue bonds and notes payable, net	\$1,221,398,083

2024

Auxiliary Facility and Tuition Revenue Bonds

As of June 30, 2024, Auxiliary Facility and Tuition Revenue Bonds (Revenue Bonds) consisted of the following:

	Interest Rates	Maturity Dates	Principal Outstanding
2012 Series D	3.00% - 4.00%	2024-2027	\$ 20,270,000
2015 Series A	3.00% - 5.00%	2024-2028	24,565,000
2016 Series A	3.00% - 5.00%	2024-2036	99,110,000
2016 Refunding Series B	2.375% - 5.00%	2024-2030	35,680,000

2024 Refunding Series B	5.00%	2024-2026	28,975,000
Subtotal			1,061,860,000
Unamortized discounts and premiums			129,044,567
Revenue Bonds, net			\$ 1,190,904,567

Revenue Bonds have been issued pursuant to an Indenture of Trust, an agreement entered into with a trustee for the benefit of holders of Revenue Bonds. Pursuant to the Indenture of Trust, the System has agreed to charge and collect tuition revenues and net auxiliary facility fees in an amount that is not less than 200% of the maximum future annual debt service on Revenue Bonds. For the current year, principal and interest paid and total tuition and auxiliary facility fees were \$132,054,062 and \$2,621,499,133, respectively.

Revenue Bonds issued during the year ended June 30, 2024, including the results of any refinancing of outstanding debt, were as follows:

				Par value of		Deferred gain / (loss)	_
Debt issuance		Par value of debt issued		debt refunded	debt service	on refunding	Economic gain
	February	,					
2024 Series A	29, 2024	\$73,295,000	\$8,638,397	7			
2024 Refunding	February	,					
Series B	29, 2024	29,690,000	1,739,263	3 \$30,170,000	\$944,547	7\$(1,771,922)	\$909,272
As of June 30, 2024,	no previ	ously issued	debt was re	moved from t	he System's	s financial stat	tements
through advance refun	ding trans	sactions.					

As of June 30, 2024, cash and cash equivalents and investments restricted by the terms of the Indenture of Trust totaled \$78,803,947.

Other

Other debt and notes payable includes amounts borrowed to finance facilities, equipment acquisitions, a marine research vessel and other improvements designed to enhance energy efficiency savings.

The System is subject to Federal arbitrage laws governing the use of proceeds of tax-exempt debt.

Future principal and interest payments as of June 30, 2024, are as follows:

	Auxiliary Facility and Tuition Revenue Bonds		Notes Payable Long-term		Total
Year ending June 30,	Principal	Interest	Principal	Interest	Payments
2025 2026 2027 2028 2029 2030 - 2034 2035 - 2039 2040 - 2044 2045 - 2049	\$ 86,040,000 \$ 86,810,000 90,870,000 88,695,000 84,620,000 173,955,000 65,395,000 44,770,000	42,488,540 \$ 38,056,040 33,939,695 30,044,616 26,127,826 87,724,106 42,349,056 20,017,300 9,870,050	2,128,444 \$ 1,994,988 1,967,125 1,854,181 1,694,543 9,036,009 10,057,085 1,761,141	582,654 \$ 590,178 545,918 505,127 463,106 1,752,239 731,164 17,096	131,239,638 127,451,206 127,322,738 121,098,924 112,905,475 414,442,354 227,092,305 87,190,537 54,640,050

12. LEASES

Lessee arrangements

The System leases equipment as well as certain operating and office facilities for various terms under long-term, non-cancelable lease agreements. Upon inception, the System recognizes a lease liability and

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

an intangible right-to-use lease asset (lease asset) in its financial statements. Right-to-use assets acquired through outstanding leases are shown by underlying asset class in Note 6. Many of the leases provide for an optional extension of the terms of the agreements and increases in payment amounts based on changes in indices such as the Consumer Price Index. The leases expire at various dates through 2043.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

Total future minimum lease payments under lease agreements as of June 30, 2024, are as follows:

Year ending June 30,	Principal	Interest 7	otal Payments
2025 2026 2027 2028 2029 2030 - 2034	\$ 18,651,051 \$ 14,474,031 12,184,749 12,579,080 8,313,120 18,603,587	2,199,852 \$ 1,713,460 1,339,354 1,593,252 582,388 1,201,841	20,850,903 16,187,491 13,524,103 14,172,332 8,895,508 19,805,428
2035 - 2039 2040 - 2044	1,464,228 407,310	211,815 19,078	1,676,043 426,388
Total	\$ 86,677,156 \$	8,861,040 \$	-

Lessor

The System, acting as lessor, leases land and buildings under long-term, non-cancelable lease agreements. The System recognized a lease receivable and a deferred inflow of resources in its financial statements. The leases expire at various dates and provide for renewal options. During the year ended June 30, 2024, the System recognized \$10,841,713 and \$695,536 in lease revenue and interest revenue, respectively, pursuant to these contracts.

13. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

The System has entered into contracts granting the System the right to use vendor-provided information technology for various terms under long-term, non-cancelable subscription agreements, referred to as Subscription-Based Information Technology Arrangements (SBITAs). Upon inception, the System recognizes a liability and an intangible right-to-use asset in its financial statements. Right-to-use assets acquired through SBITAs are shown with related accumulated depreciation in Note 6. Many of the subscriptions provide for an optional extension of the terms of the agreements and increases in payment amounts based on changes in indices such as the Consumer Price Index. The subscriptions expire at various dates through 2033.

Total future minimum subscription payments under SBITAs as of June 30, 2024, are as follows:

Year ending June 30,	Principal	Interest	Total Payments
2025	\$ 17,698,615 \$	1,193,056 \$	18,891,671
2026	11,062,138	714,410	11,776,548
2027	5,782,505	417,677	6,200,182
2028	2,703,681	265,374	2,969,055
2029	1,914,185	186,643	2,100,828

17. RETIREMENT AND PENSION PLANS

General Information about the Pension Plan

Plan description

Some employees of the System are members of the Maryland State Retirement and Pension System (MSRPS). These employees are members of either the Teachers Pension System (TPS) or the Employees Retirement System (ERS) of the State of Maryland. The TPS and ERS are part of the MSRPS which is considered a multiple employer cost-sharing plan. Some employees of the System may choose as an alternative to participate in the Optional Retirement Program (ORP), which is a defined contribution plan. The State Personnel and Pensions Article of the Annotated Code of Maryland (the Article) grants the authority to establish and amend the benefit terms of TPS and ERS to the MSRPS Board of Trustees. MSRPS issues a publicly available financial report that can be obtained at:

www.sra.state.md.us/agency/downloads/cafr/

Benefits provided

An individual who is a member of either the TPS or ERS on or before June 30, 2011, is eligible for full retirement benefits upon the earlier of attaining age 62, with specified years of eligibility service, or accumulating 30 years of eligibility service regardless of age. An individual who becomes a member of either the TPS or ERS on or after July 1, 2011, is eligible for full retirement benefits if the member's combined age and eligibility service equals at least 90 years or if the member is at least age 65 and has accrued at least 10 years of eligibility service. For most individuals who retired from either the TPS or ERS on or before June 30, 2006, the annual pension allowance equals 1.2% of the member's average final compensation (AFC), multiplied by the number of years of creditable service accumulated prior to July 1, 1998, plus 1.4% of the member's AFC, multiplied by the number of years of creditable service accumulated subsequent to June 30, 1998. With certain exceptions, for individuals who are members of the TPS or ERS on or after July 1, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of creditable service accumulated prior to July 1, 1998, plus 1.8% of the member's AFC, multiplied by the number of years of creditable service accumulated subsequent to June 30, 1998. Beginning July 1, 2011, any new member of the TPS or ERS shall earn an annual pension allowance equal to 1.5% of the member's AFC multiplied by the number of years of creditable service accumulated as a member of the TPS or ERS.

Disability and Death Benefits

Generally, a member covered under retirement plan provisions who is permanently disabled after 5 years of service receives a service allowance based on a minimum percentage (usually 25%) of the member's AFC. A member covered under pension plan provisions who is permanently disabled after accumulating 5 years of eligibility service receives a service allowance computed as if service had continued with no change in salary until the retiree attained age 62. Death benefits are equal to a member's annual salary as of the date of death plus all member contributions and interest.

Contributions

The Article sets contribution requirements of active employees and the participating governmental units and may be amended by the MSRPS Board. Members of the ERS are required to contribute 6% of their annual pay. Members of the TPS are required to contribute 7% of their annual pay. The State of Maryland is responsible for the net pension liability of TPS. The System's required contribution rates are based on annual actuarial valuations using the individual Entry Age Normal Cost method with projection and other actuarial assumptions adopted by the MSRPS Board of Trustees. These contribution rates have been established as the rates necessary to fully fund normal costs and amortize the unfunded actuarial accured liability. As such, the State of Maryland is responsible for 100% of the net pension liability related to TPS and qualifies as a special funding situation.

The System's required contribution for the year ended June 30, 2024 was \$182,866,330 and was actuarially determined as an amount that, when combined with the State of Maryland and employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability (State only).

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2024 the System reported a liability of \$1,499,173,353 as its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The System's proportion of the net pension liability was a ratio of the System's long-term share of contributions to the pension plan relative to the contributions of all participating government units, actuarially determined. As of June 30, 2024 and 2023, the System's proportion for the net pension liability was 7.00% and 7.00%, respectively, resulting in no change since the prior measurement date.

For the year ended June 30, 2024 the System recognized pension expense of \$175,625,958. As of June 30, 2024, the System reported deferred outflows of resources and deferred inflows of resources related to the net pension liability of the following sources:

	2024		
	Deferred Outflows of Resources	Deferred Inflows of Resources	
Changes in actuarial assumptions Net difference between projected and actual earnings on pension plan	\$103,114,501	\$ 5,056,727	
investments	132,964,045		
Contributions made subsequent to the measurement date	182,866,330		
Change in proportionate share	2,233,349	5,139,149	
Difference between actual and expected experience	52,691,489	63,949,889	
Total	\$473,869,714	\$ 74,145,765	

The System reported \$182,866,330 as deferred outflows of resources related to the pension resulting from the System's contributions subsequent to the measurement date that will be recognized as a reduction of the pension liability in the year ended June 30, 2025.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

Amounts other than contributions made subsequent to the measurement date reported as deferred outflows of resources and deferred inflows of resources related to the pensions will be recognized in pension expense as follows:

Years ending June 30,	Deferred outflows	Deferred inflows
2025	\$ 59,876,537	\$ 29,221,039
2026	34,189,000	22,048,949
2027	148,974,816	16,813,117
2028	42,722,114	5,867,779
2029	5,240,917	194,881
Total	\$291,003,384	\$ 74,145,765

Information included in the MSRPS financial statements

Actuarial assumptions, long-term expected rate of return on pension plan investments, discount rate, and pension plan fiduciary net position are available at:

https://sra.maryland.gov/annual-financial-reports

Sensitivity of the System's proportionate share of the net pension liability to changes in the discount rate.

The System's proportionate share of the net pension liability calculated using the discount rate of percent is \$1,499,173,353. The System's proportionate share of the net pension liability, if it were calculated using a discount rate that is 1-percentage-point lower ((1.00) percent) is \$2,222,970,593, or 1-percentage-point higher (1.00 percent) is \$898,546,936.

Optional Retirement Program

Another option for employees if they choose not to participate in the MSRPS is the optional retirement programs (ORP), which are defined contribution money purchase plans funded currently each year and invested in specific funds offered by one of two vendors. In defined contribution plans, benefits depend solely on amounts contributed plus investment earnings.

Qualified employees are eligible to participate from the date of employment. Employees in both the ORP and the State System can also participate in supplemental retirement plans.

State legislation provides that the System contribute 7.25 percent of covered employees' annual salaries each month. The employee does not have to contribute to the plan in order to receive the System's contribution. The System's contribution along with that of the employee is immediately and fully vested. Payroll for employees covered in the ORP for the year ended June 30, 2024, was \$1,783,897,215.

The amount contributed by the System for employees participating in the ORP for the year ended June 30, 2024 was \$129,332,548.

Major Component Units

The USMF maintains a defined contribution plan for certain personnel provided by TIAA-CREF. The USMF contributes 7.25 percent of the employees' compensation to the plan. In addition, eligible employees are entitled to make voluntary contributions to the plan. Total pension expense for the year ended June 30, 2024, was approximately \$350,000.

18. OTHER POSTEMPLOYMENT BENEFITS

Members of the State Retirement and Pension System of Maryland and their dependents are provided postemployment health care benefits through the State Employee and Retiree Health and Welfare Benefits Program (the Plan). The Plan is a cost sharing defined benefit healthcare plan established by the State Personnel and Pensions Article, Section 2-501 through 2-516 of the Annotated Code of Maryland. The Plan is self-insured to provide medical, hospitalization, prescription drug and dental insurance benefits to eligible state employees, retirees, and their dependents.

State Employee and Retiree Health and Welfare Benefits Program of Maryland

Plan Description

Effective July 1, 2004, the State established the Postretirement Health Benefits Trust Fund (OPEB Trust) to receive appropriated funds and contributions to assist the Plan in financing the State's postretirement health insurance subsidy. The OPEB Trust is established in accordance with Section 34-101 of the State Personnel and Pensions Article of the Annotated Code of Maryland and is administered by the Board of Trustees for the Maryland State Retirement and Pension System. The Plan is included in the State's CAFR, which can be obtained from the Comptroller of Maryland's website at:

www.marylandtaxes.com

System employees are members of the Plan. Eligibility for the Plan is determined by various factors, including date of hire. Generally, employees hired before July 1, 2011 may enroll and participate in the Plan if the employee left State service with at least 16 years of creditable service, retired directly from State service with at least 5 years of creditable service, left State service with at least 10 years of creditable service and within 5 years of normal retirement age, or retired directly from State service with a disability retirement. Employees hired on or after July 1, 2011, may enroll and participate in the Plan if the employee left State service with at least 25 years of creditable service, retired directly from State service with at least 10 years of creditable service and within 5 years of normal retirement age, or retired directly from State service with a disability retirement.

Funding Policy

Funds deposited into the OPEB Trust may consist of any funds appropriated to the OPEB Trust, whether directly or through the budgets of any State agency. The State is required by law to include money in the State budget to pay the State's share of the costs of the Plan.

The State subsidizes a portion of the covered medical, dental, prescription, and hospitalization costs, depending on the type of insurance plan. Costs for postretirement benefits for State retirees are primarily funded by the State. The State does not distinguish employees by employer/State agency. The State has elected to maintain the entire net OPEB liability as a liability of the general fund of the State and has not

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

allocated any balances to State entities including the System.

A separate actuarial valuation is not performed by the System. The System's only obligation to the Plan is its required annual contribution, which it has fully funded during the years ended June 30, 2024, 2023, and 2022. The amount contributed for the years ended June 30, 2024, 2023, and 2022 was \$165,304,663, \$122,470,987, and \$104,579,077 respectively.

19. CONSTRUCTION COMMITMENTS

The estimated costs to complete construction in progress as of June 30, 2024 is \$461,024,000 of which \$53,302,000 is to be funded from Revenue Bond proceeds, \$322,255,000 is to be derived from State capital appropriations and grants, and \$85,467,000 to be provided from System funds.

20. CONTINGENT LIABILITIES

The System has entered into future purchase commitments for natural gas and electricity, as a means of hedging its risk against fluctuations in price of an important fuel commodity and electricity supplies. As of June 30, 2024, the System had entered into open contracts for the purchase of \$6,842,390 of natural gas to be delivered through June 2025. Future purchase commitments for electricity to be supplied through June 2025 totaled \$31,339,634 as of June 30, 2024. The System and its institutions generally take delivery of the natural gas and electricity purchased through future purchase contracts.

The System receives support from federal and state grant programs, primarily for student financial assistance and research activities. Entitlement to the resources requires compliance with terms of the grant agreements and applicable regulations, including the expenditure of the resources for eligible purposes. Substantially all grants are subject to financial and compliance audits by the grantors. As of June 30, 2024, the System estimates that adjustments, if any, as a result of such audits would not have a material adverse effect on the accompanying financial statements.

The System is involved in a number of legal actions that arise in the normal course of its operations. Management is not aware of any legal actions that will have a material adverse effect on the System's financial position.

21. RISK MANAGEMENT

The System participates in State-wide self-insurance programs for many forms of risk of loss, including general liability, property and casualty, workers' compensation, environmental and anti-trust liabilities, as well as certain employee health benefit programs.

The System remits premiums to the State to cover costs of claims servicing and claims payments. The premiums are based on a percentage of annual payroll or are based on average loss experience, taking into account recent trends in actual claims experience, and providing for catastrophic losses.

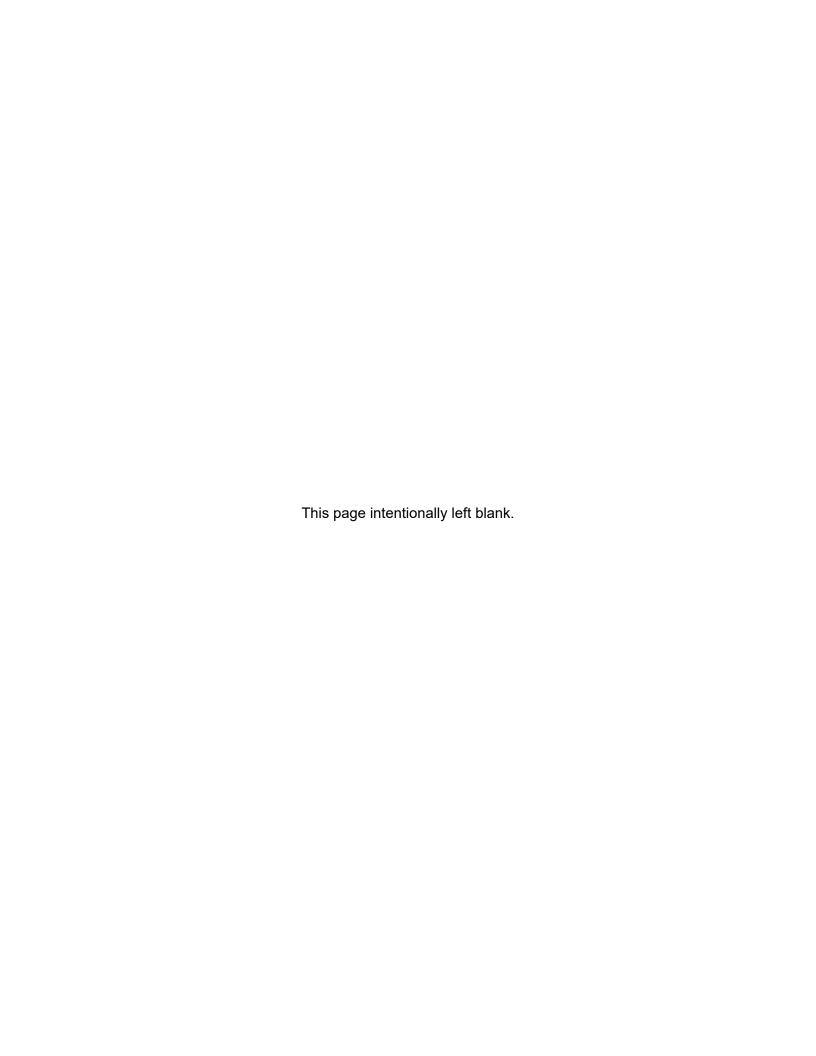

The System records a liability when it is probable that a loss has been incurred and the amount of that loss can be reasonably estimated. Liabilities recorded include a provision for claims incurred but not reported. Because actual claims liabilities depend on such complex factors such as inflation, changes in legal doctrines, and damage awards, actual claims could differ from estimates. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors. Liabilities for incurred workers' compensation losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their present value using

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2024

a 4% discount rate. The provision for workers' compensation is based upon a separately determined actuarial valuation for the fiscal year ended June 30, 2024. Settlement amounts have not exceeded insurance coverage levels for the years ended June 30, 2024, 2022, or 2021. As of June 30, 2024, the System has recorded \$27,977,000 in liabilities associated with workers' compensation, respectively.

22. SUBSEQUENT EVENTS

In July 2024, the NCAA filed documents to settle various class-action lawsuits related to back damages and future benefits for Division I (DI) student-athletes. The settlement calls for total back damages of approximately \$2.78 billion to be paid over 10 years by the NCAA, the Power 5 conferences (of which the System is a member), and other DI conferences. In addition, going forward, the settlement allows the Power 5 conference member institutions (and other DI institutions that opt in the new structure) to provide increased benefits to student-athletes. Currently, the settlement is pending the approval of the courts, which could take several months. In addition, there are numerous other unresolved issues (state laws, employee designations, litigation by opposing parties, etc.) that could impact the timing and final results of the settlement. The impact could be significant to the System's DI Athletic Programs, however it is not estimable as of the date of this report.

UNIVERSITY SYSTEM OF MARYLAND

NOTES TO SUPPLEMENTARY INFORMATION YEAR ENDED JUNE 30, 2024

ACCOUNTING AND REPORTING PRACTICES

Supplementary data reporting units

University System of Maryland Office (System Office), composed of the offices of the Chancellor and Vice Chancellors and their respective staffs, provides central executive and administrative services and supports and coordinates the efforts of the entire System. The expenses incurred in connection with these activities are reported on the financial records of the System Office.

Facilities maintenance expenses

Certain expenses for facilities management for the System Office and the University of Maryland Global Campus are included in the financial records of University of Maryland, College Park.

System-wide financing arrangements

The System constructs, acquires, and renovates plant facilities using the proceeds of Revenue Bonds and other financing arrangements. The proceeds of System-wide financing arrangements are used in accordance with Board authorizations, which specify the projects for which the funds are to be used. Unexpended proceeds and a proportionate share of the outstanding debt obligation are reported on the financial records of the System Office.

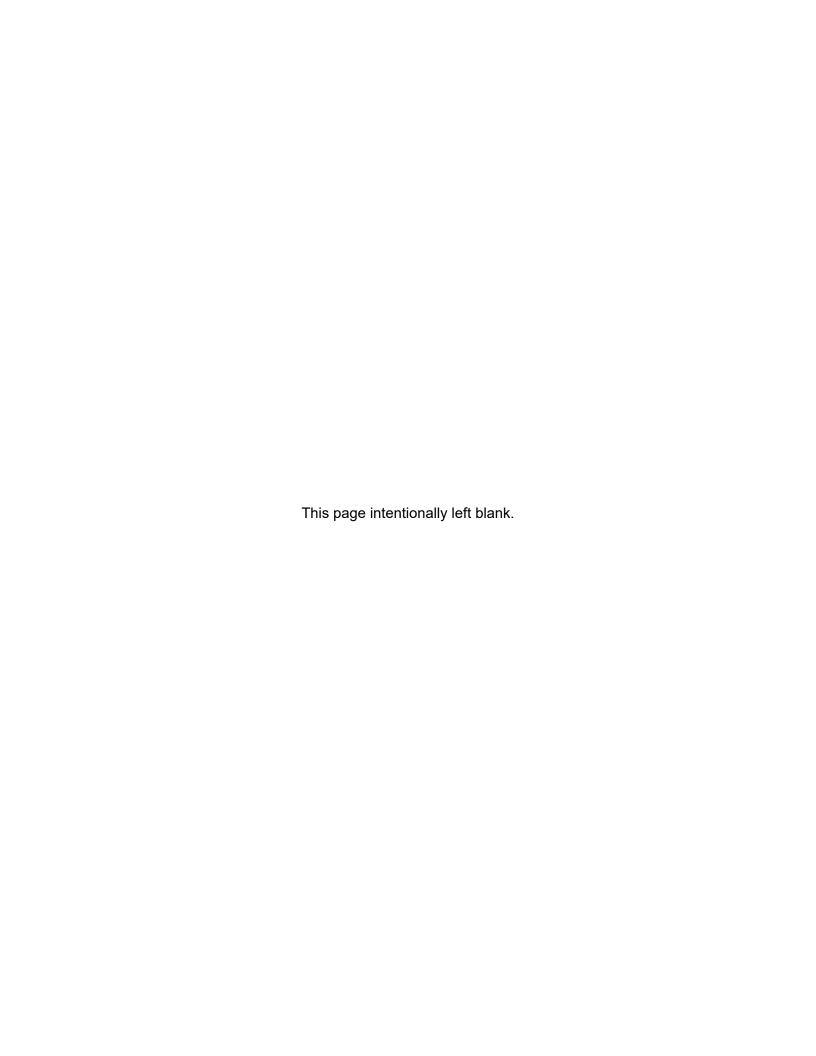

Institutions are obligated to provide a proportionate share of the principal and interest payments attributable to auxiliary enterprises projects financed using the proceeds of System-wide financing arrangements. Currently, each instructional institution, with the exception of the University of Maryland Global Campus, provides a portion of the debt service attributable to academic facilities. To the extent that an instructional institution provides (or receives) resources for debt service for academic facilities (and the proportionate share of the outstanding debt obligation) recorded on another System institution or unit, such amounts are reported as a Transfer To / (From) Other University System of Maryland Institutions on the Statement of Revenues, Expenses, and Changes in Net Position.

Component Unit information included in Supplementary Information Institutional Financial Statements

The System provides supplementary information financial statements for each System institution that reflect the financial information for each System institution, along with financial information reported by component units that have received assets for the benefit of the institution.

All but one affiliated foundation reported as component units perform fundraising for the benefit of a single, unique System institution. The University System of Maryland Foundation, Inc. (USMF), which performs investment management activities on behalf of the System, as well as other affiliated foundations reported as component units, is the lone affiliated foundation that holds assets received for the benefit of multiple System institutions.

The component unit information reported in supplementary information financial statements for System institutions is made up of the financial statement information from institution-specific affiliated foundations recognized as component units, and an allocation of financial statement balances and activity for the USMF. The allocation of balances and activity of the USMF is based on the proportionate amounts of assets held by the USMF for the benefit of each System institution.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Regents University System of Maryland Adelphi, Maryland

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate discretely presented component units of the University System of Maryland (the System), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the System's basic financial statements, and have issued our report thereon dated December 16, 2024. Our report includes a reference to other auditors who audited the financial statements of the University System of Maryland Foundation, Inc., the University of Maryland College Park Foundation, Inc., the University of Maryland Baltimore Foundation, Inc., University of Maryland Faculty Physicians, Inc., Bowie State University Foundation, Inc., Towson University Foundation, Inc., Frostburg State University Foundation, Inc., University of Baltimore Foundation, Inc. and University Properties, Inc., Salisbury University Foundation, Inc., University of Maryland Orthopaedic Associates, P.A., University of Maryland Pediatric Associates, P.A., and UMGC Ventures, Inc. and Subsidiaries, as described in our report on the University System of Maryland's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

The financial statements of the University System of Maryland Foundation, Inc., the University of Maryland College Park Foundation, Inc., the University of Maryland Baltimore Foundation, Inc., University of Maryland Faculty Physicians, Inc., Bowie State University Foundation, Inc., Towson University Foundation, Inc., Frostburg State University Foundation, Inc., University of Baltimore Foundation, Inc. and University Properties, Inc., Salisbury University Foundation, Inc., University of Maryland Orthopaedic Associates, P.A., University of Maryland Pediatric Associates, P.A., and UMGC Ventures, Inc. and Subsidiaries were not audited in accordance with *Government Auditing Standards*.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the System's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we do not express an opinion on the effectiveness the System's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
